

Risk Radar map atlas - Central Province

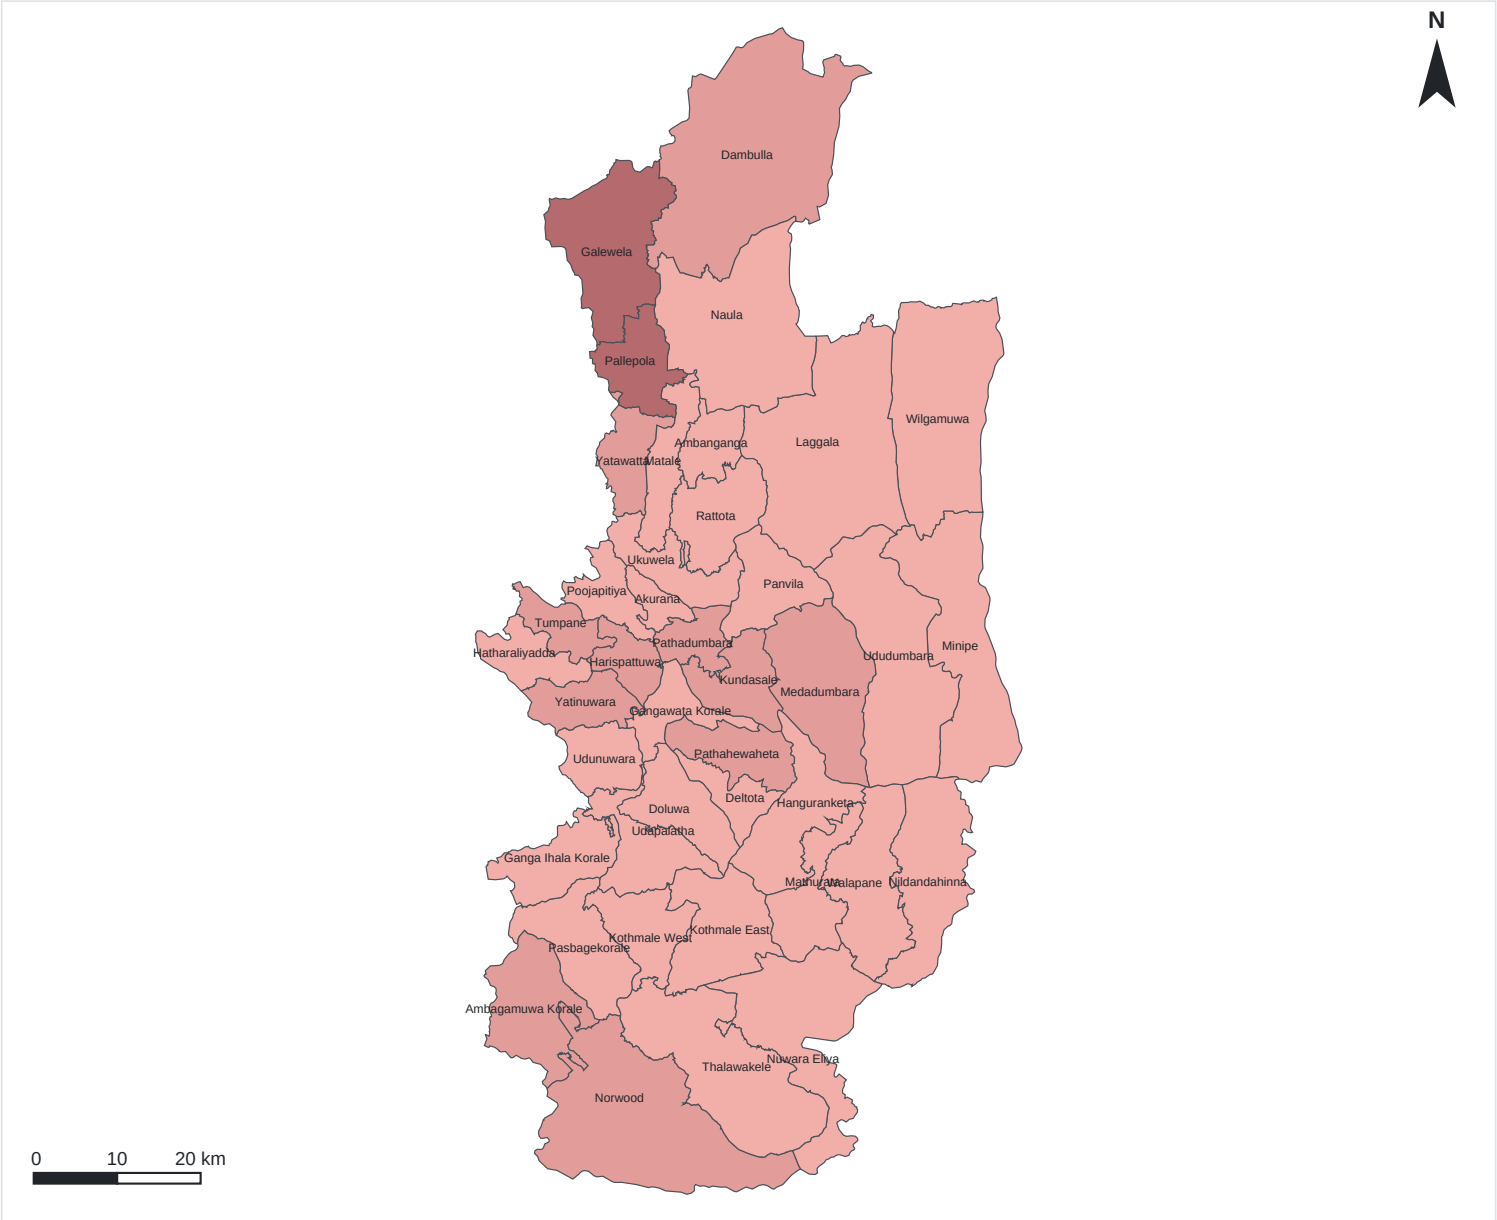

Period 2021-2025 | Official track | layers: Vulnerability, Hazard, Exposure
33 profile(s), 99 map page(s). Each page is one sector profile and one layer.
Scores are provincial indexes: relative to Central Province, not comparable across provinces.
Contents give the page of each layer: V = vulnerability, H = hazard, E = exposure.

Contents

Agriculture Sector / Coconut - Drought	V 2 H 3 E 4	Water Sector / Irrigation Water - Drought	V 86 H 87 E 88
Agriculture Sector / Paddy - Drought	V 5 H 6 E 7	Water Sector / Irrigation Water - Flood	V 89 H 90 E 91
Agriculture Sector / Paddy - Flood	V 8 H 9 E 10	Water Sector / Potable Water - Drought	V 92 H 93 E 94
Agriculture Sector / Tea - Drought	V 11 H 12 E 13	Water Sector / Potable Water - Flood	V 95 H 96 E 97
Agriculture Sector / Tea - Flood	V 14 H 15 E 16	Water Sector / Potable Water - Landslide	V 98 H 99 E 100
Agriculture Sector / Vegetable & Other Field Crops - Drought	V 17 H 18 E 19		
Agriculture Sector / Vegetable & Other Field Crops - Flood	V 20 H 21 E 22		
Human Settlements Sector - Drought	V 23 H 24 E 25		
Human Settlements Sector - Flood	V 26 H 27 E 28		
Human Settlements Sector - Landslide	V 29 H 30 E 31		
Industry Sector - Drought	V 32 H 33 E 34		
Industry Sector - Flood	V 35 H 36 E 37		
Inland Fishery Sector / Inland Fishery - Drought	V 38 H 39 E 40		
Inland Fishery Sector / Inland Fishery - Flood	V 41 H 42 E 43		
Livestock Sector / Buffalo Farming - Drought	V 44 H 45 E 46		
Livestock Sector / Buffalo Farming - Flood	V 47 H 48 E 49		
Livestock Sector / Cattle Farming - Drought	V 50 H 51 E 52		
Livestock Sector / Cattle Farming - Flood	V 53 H 54 E 55		
Livestock Sector / Goat Farming - Drought	V 56 H 57 E 58		
Livestock Sector / Goat Farming - Flood	V 59 H 60 E 61		
Livestock Sector / Pig and Sheep Farming - Drought	V 62 H 63 E 64		
Livestock Sector / Pig and Sheep Farming - Flood	V 65 H 66 E 67		
Livestock Sector / Poultry Farming - Drought	V 68 H 69 E 70		
Livestock Sector / Poultry Farming - Flood	V 71 H 72 E 73		
Tourism Sector - Drought	V 74 H 75 E 76		
Tourism Sector - Flood	V 77 H 78 E 79		
Transportation Sector - Flood	V 80 H 81 E 82		
Transportation Sector - Landslide	V 83 H 84 E 85		

Vulnerability - Agriculture Sector / Coconut - Drought

Central Province | 2021-2025 | Official track
Profile COCONUT_DROUGHT_CEN_V2 (version 2) | vulnerability index of each DS division

Vulnerability level			
High	0.75-1.00		2
Moderate	0.50-0.75		0
Low	0.25-0.50		11
Very low	0.00-0.25		28

Vulnerability index: hazard x exposure, rescaled 0-1 within the province. Band thresholds are fixed, not derived from the data.

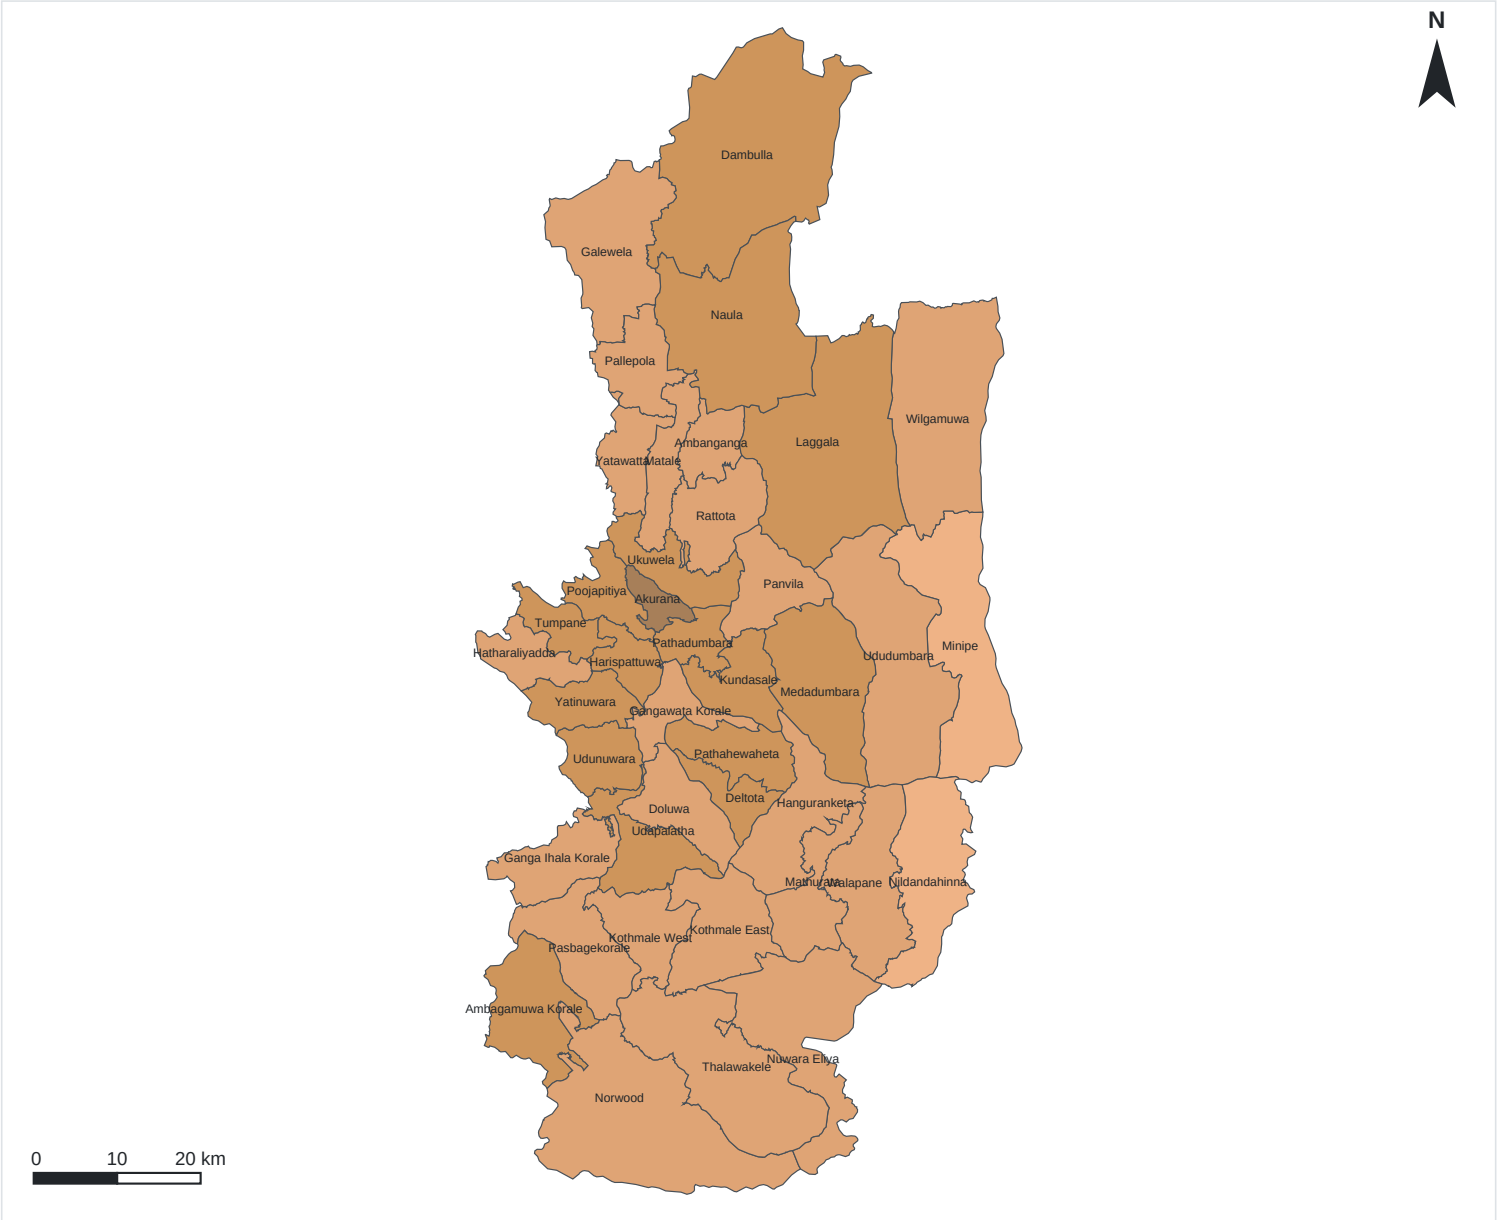

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of vulnerability.

Hazard - Agriculture Sector / Coconut - Drought

Central Province | 2021-2025 | Official track
Profile COCONUT_DROUGHT_CEN_V2 (version 2) | hazard index of each DS division

Hazard level			
	High	0.75-1.00	1
	Moderate	0.50-0.75	16
	Low	0.25-0.50	22
	Very low	0.00-0.25	2

Hazard index: this sector profile's weighted, province-normalised hazard variables (0-1). Band thresholds are fixed, not derived from the data.

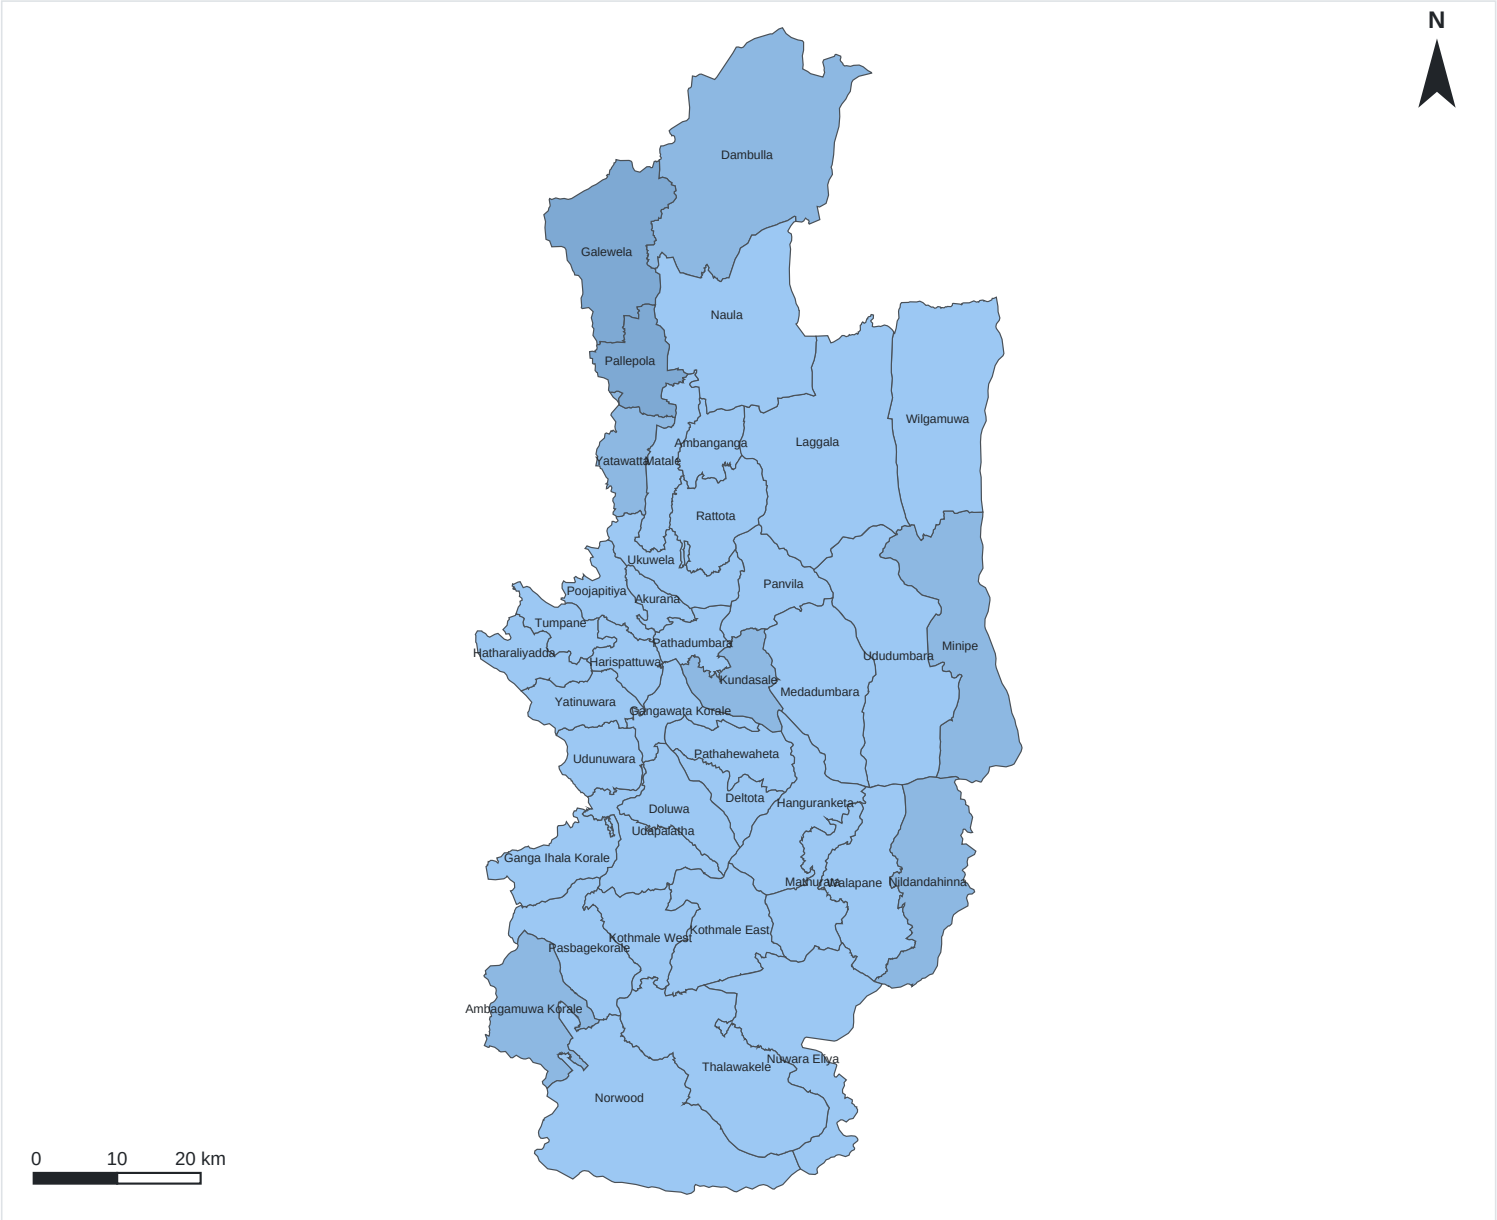

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of hazard.

Exposure - Agriculture Sector / Coconut - Drought

Central Province | 2021-2025 | Official track
Profile COCONUT_DROUGHT_CEN_V2 (version 2) | exposure index of each DS division

Exposure level			
High	0.75-1.00		0
Moderate	0.50-0.75		2
Low	0.25-0.50		6
Very low	0.00-0.25		33

Exposure index: this sector's weighted, province-normalised exposure variables (0-1). Band thresholds are fixed, not derived from the data.

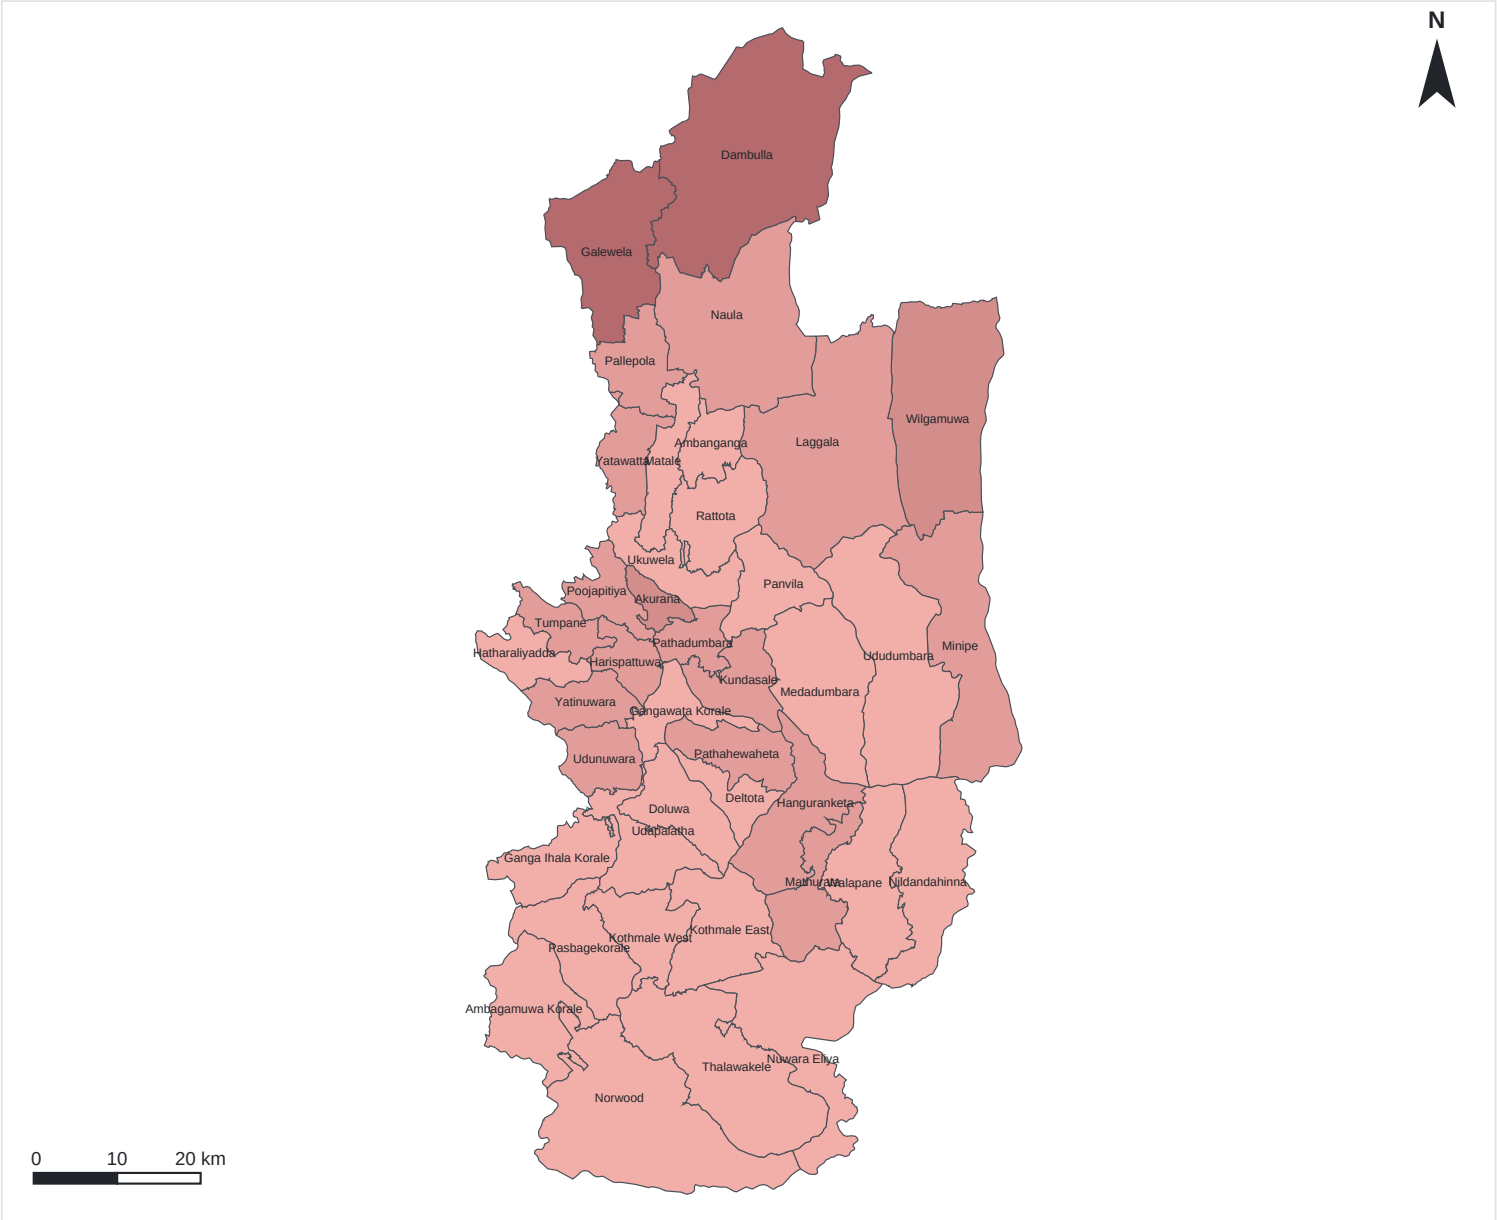

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of exposure.

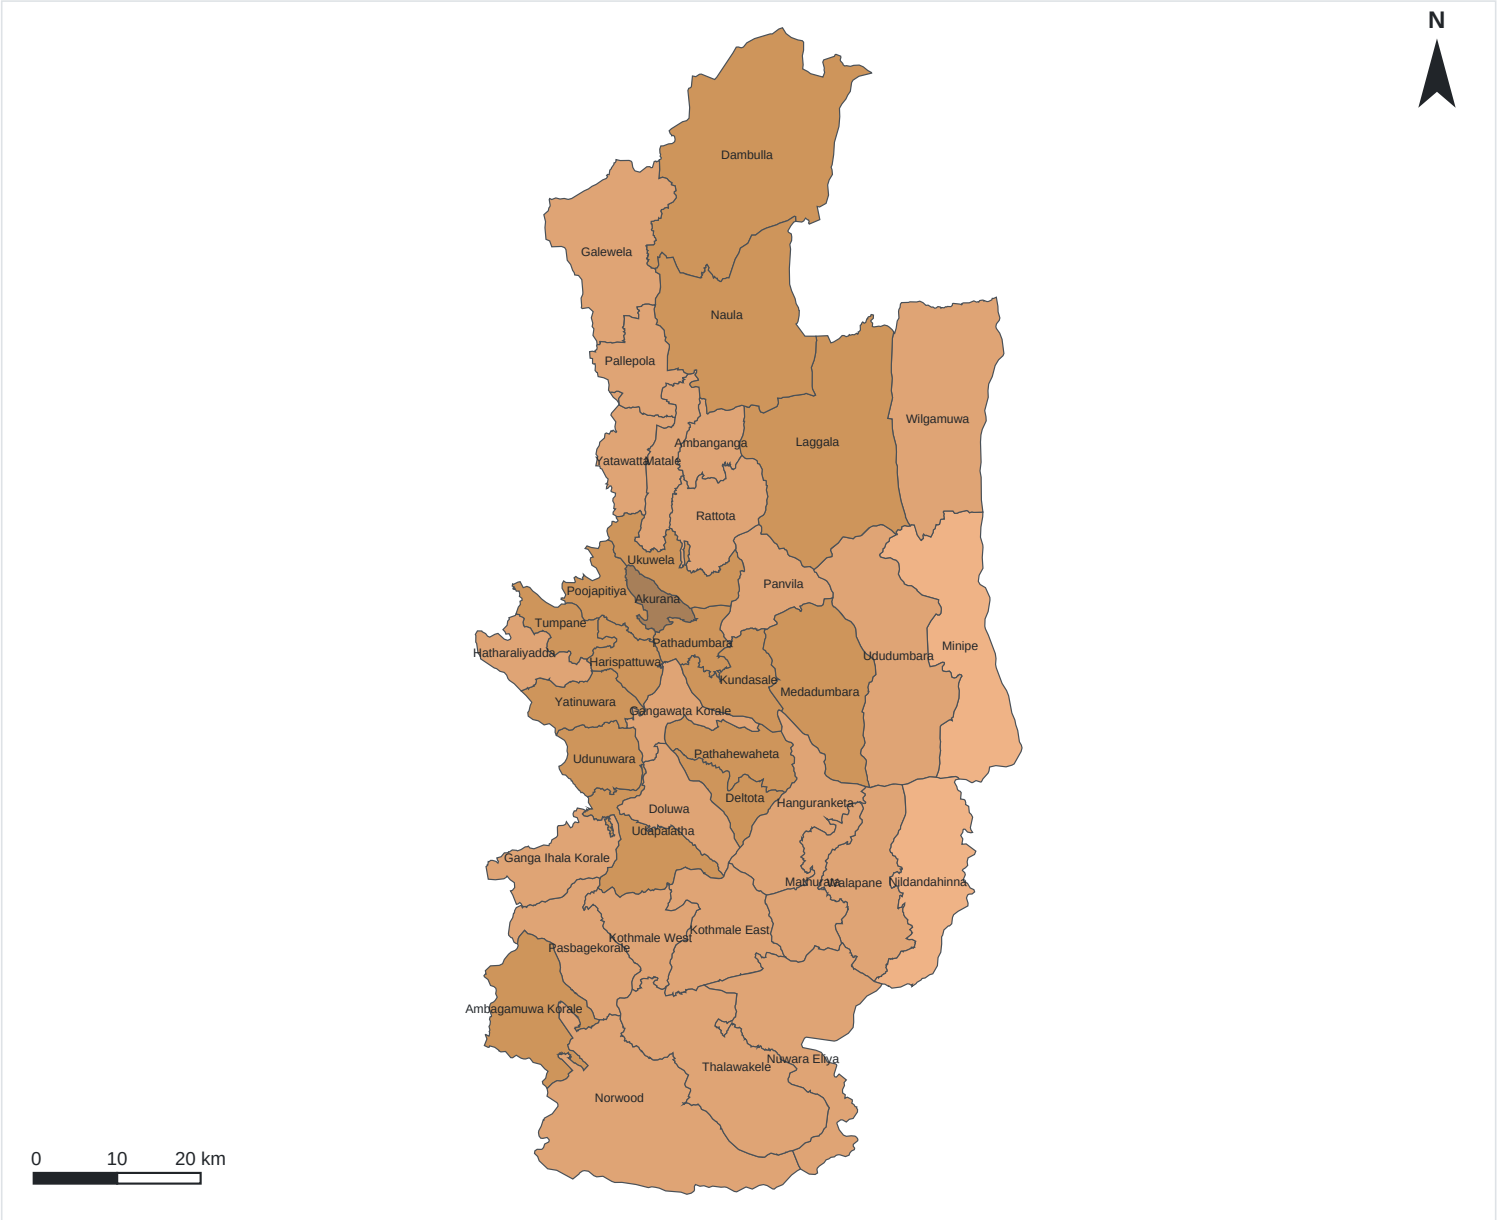

Vulnerability - Agriculture Sector / Paddy - Drought

Central Province | 2021-2025 | Official track
Profile PADDY_DROUGHT_CEN_V2 (version 2) | vulnerability index of each DS division

Hazard - Agriculture Sector / Paddy - Drought

Central Province | 2021-2025 | Official track
Profile PADDY_DROUGHT_CEN_V2 (version 2) | hazard index of each DS division

Hazard level			
	High	0.75-1.00	1
	Moderate	0.50-0.75	16
	Low	0.25-0.50	22
	Very low	0.00-0.25	2

Hazard index: this sector profile's weighted, province-normalised hazard variables (0-1). Band thresholds are fixed, not derived from the data.

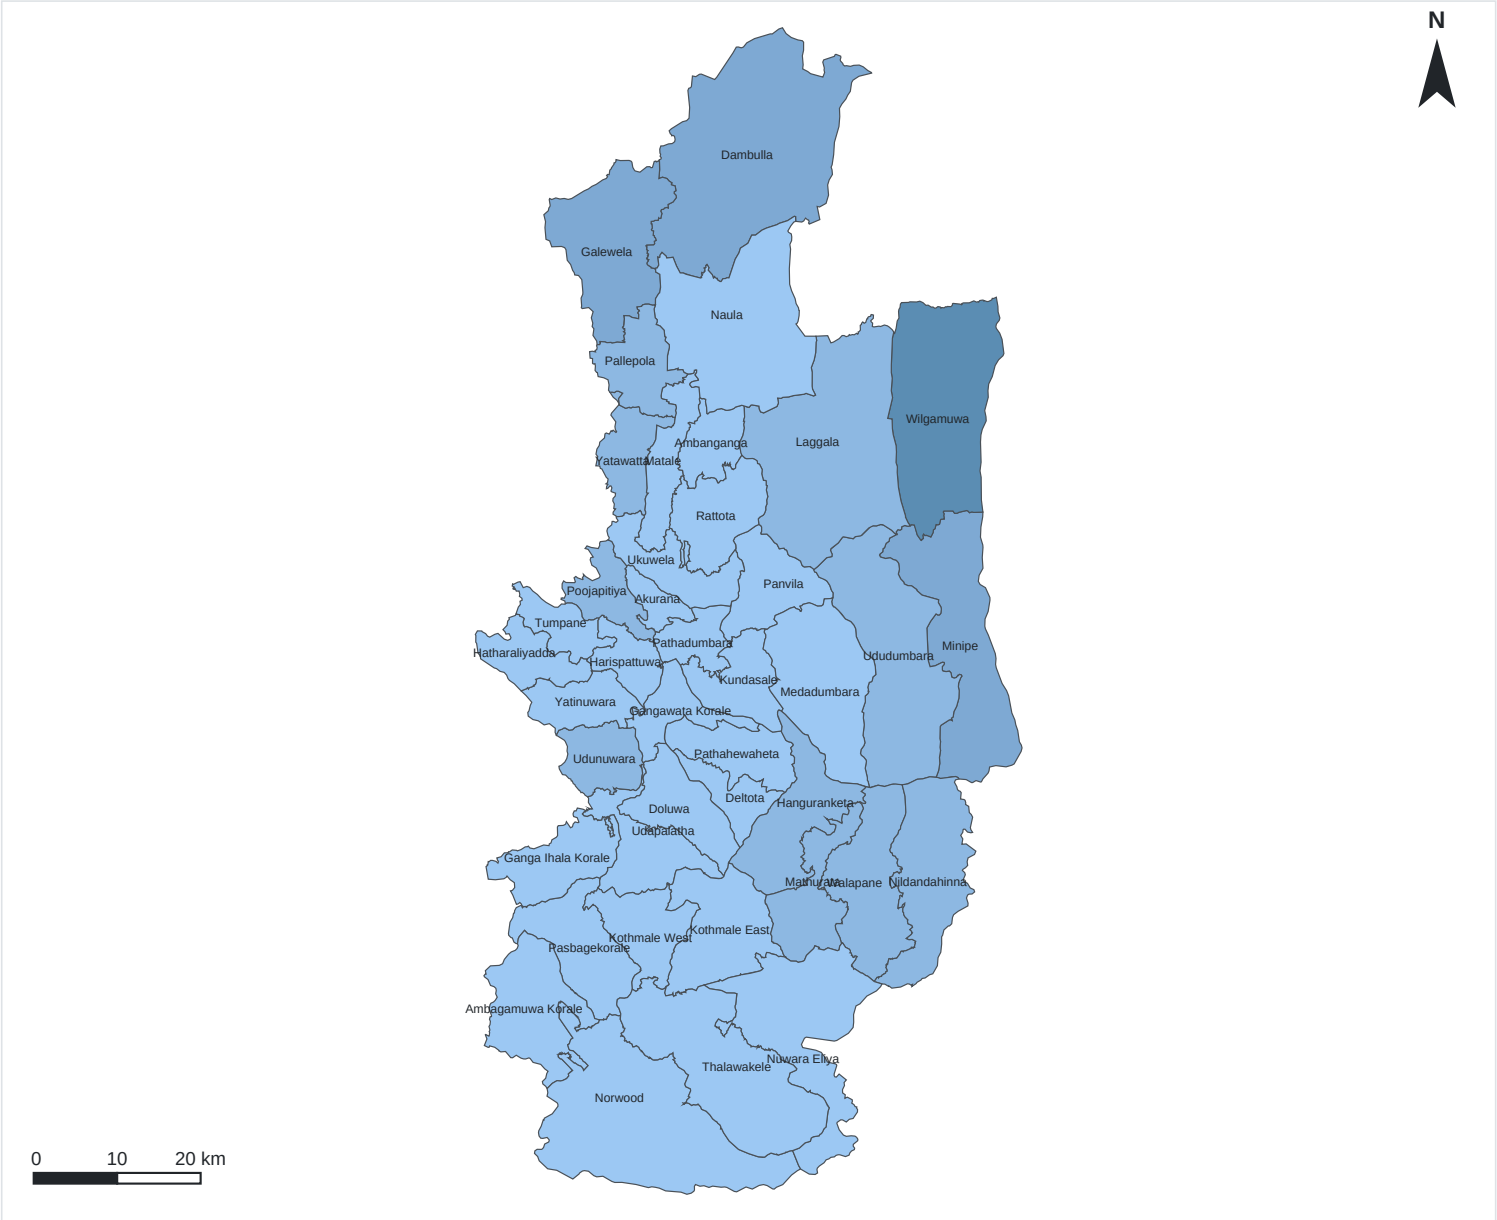

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of hazard.

Exposure - Agriculture Sector / Paddy - Drought

Central Province | 2021-2025 | Official track
Profile PADDY_DROUGHT_CEN_V2 (version 2) | exposure index of each DS division

Exposure level			
High	0.75-1.00	1	
Moderate	0.50-0.75	3	
Low	0.25-0.50	10	
Very low	0.00-0.25	27	

Exposure index: this sector's weighted, province-normalised exposure variables (0-1). Band thresholds are fixed, not derived from the data.

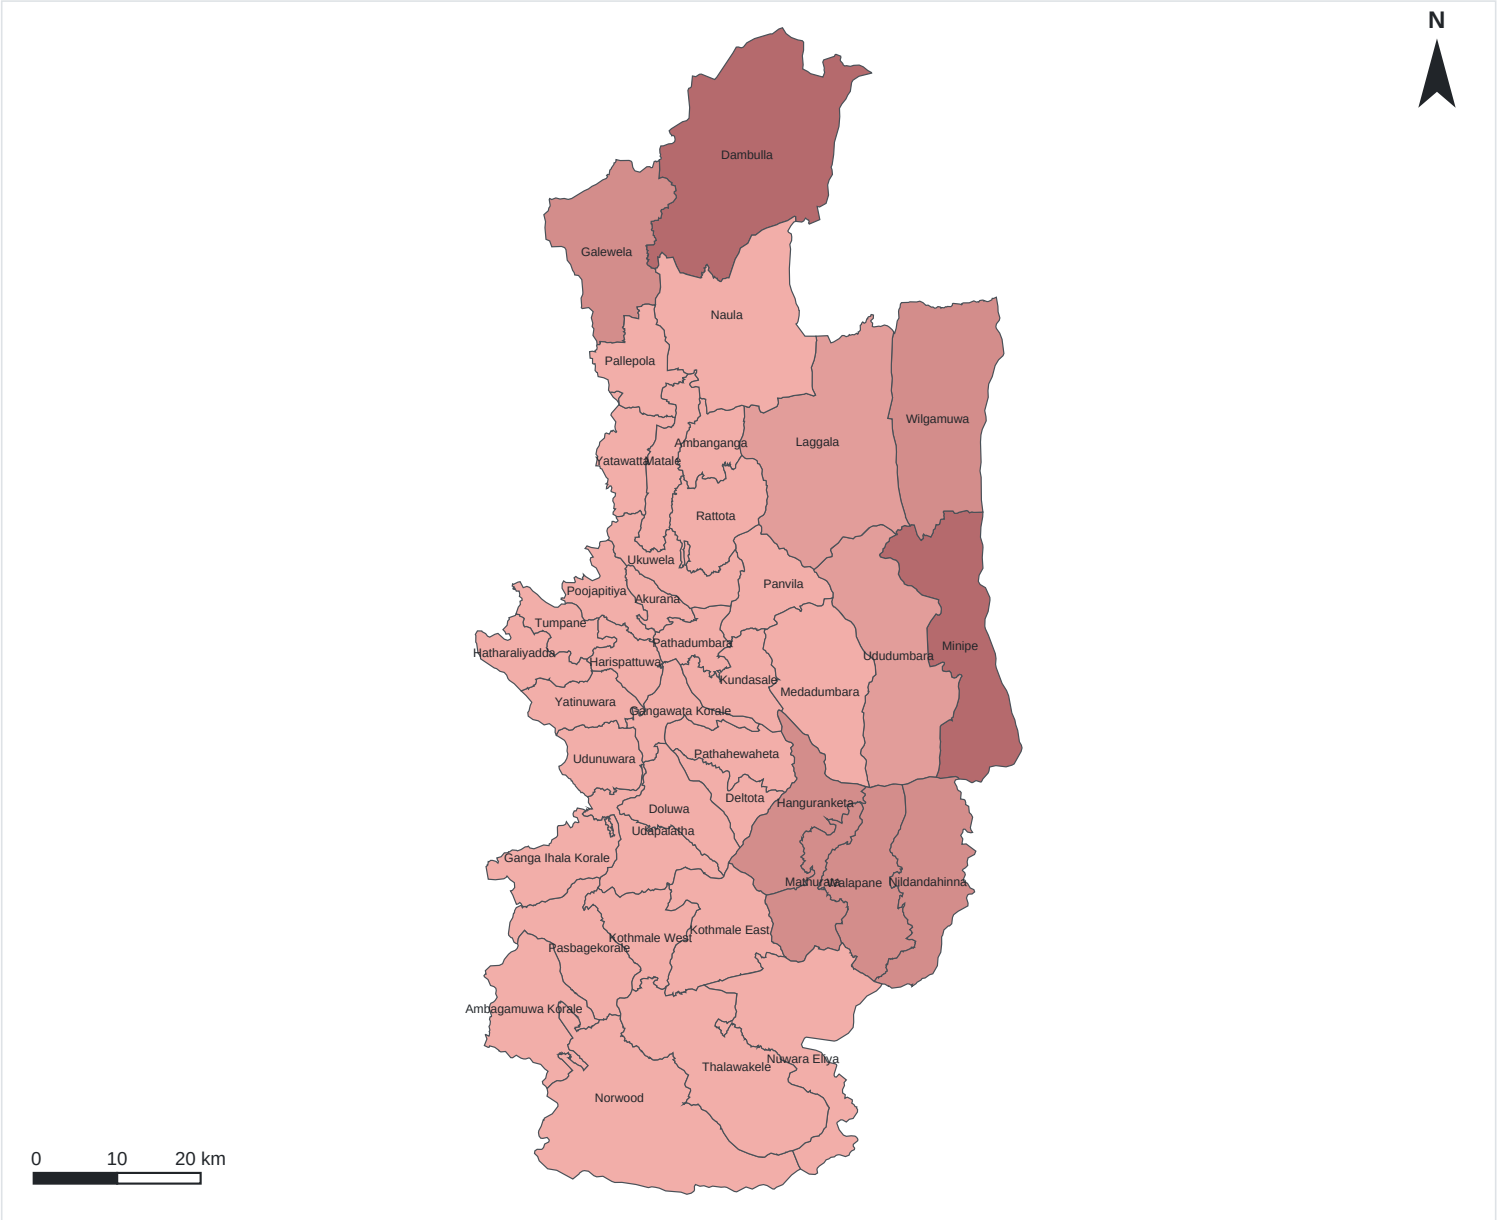

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of exposure.

Vulnerability - Agriculture Sector / Paddy - Flood

Central Province | 2021-2025 | Official track
Profile PADDY_FLOOD_CEN_V2 (version 2) | vulnerability index of each DS division

Vulnerability level			
	High	0.75-1.00	2
	Moderate	0.50-0.75	6
	Low	0.25-0.50	2
	Very low	0.00-0.25	31

Vulnerability index: hazard x exposure, rescaled 0-1 within the province. Band thresholds are fixed, not derived from the data.

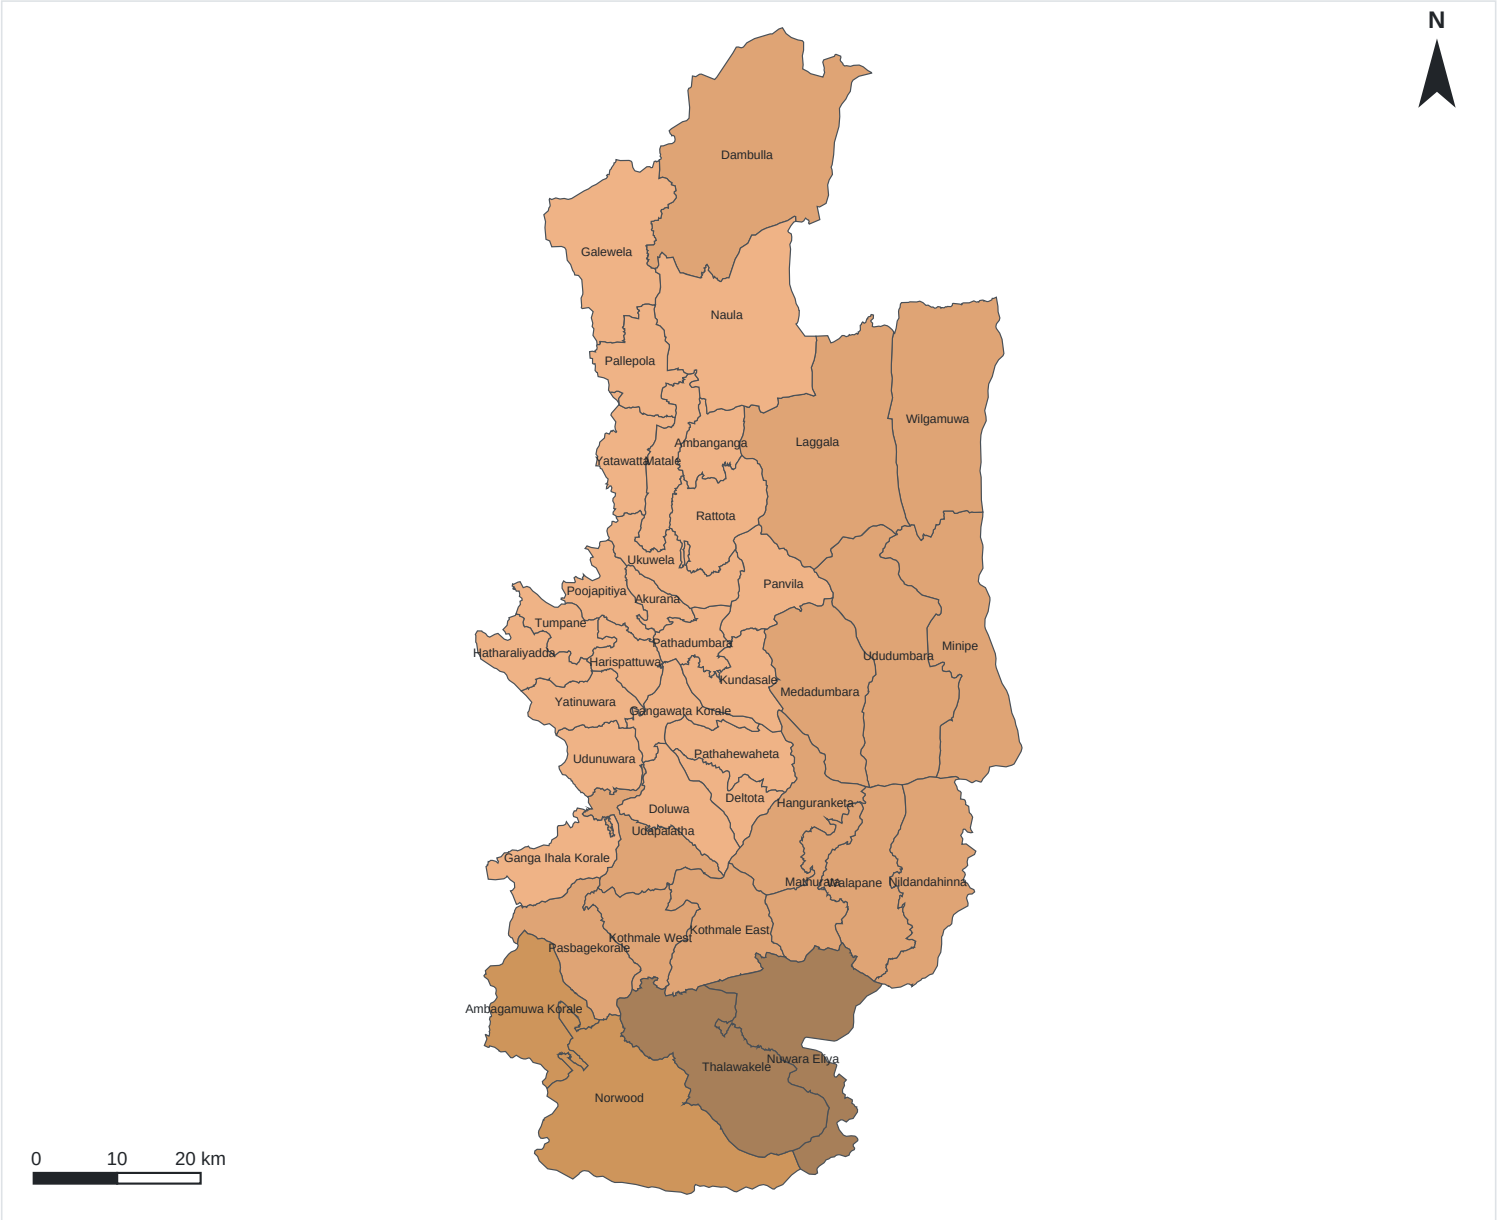

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of vulnerability.

Hazard - Agriculture Sector / Paddy - Flood

Central Province | 2021-2025 | Official track
Profile PADDY_FLOOD_CEN_V2 (version 2) | hazard index of each DS division

Hazard level			
	High	0.75-1.00	2
	Moderate	0.50-0.75	2
	Low	0.25-0.50	14
	Very low	0.00-0.25	23

Hazard index: this sector profile's weighted, province-normalised hazard variables (0-1). Band thresholds are fixed, not derived from the data.

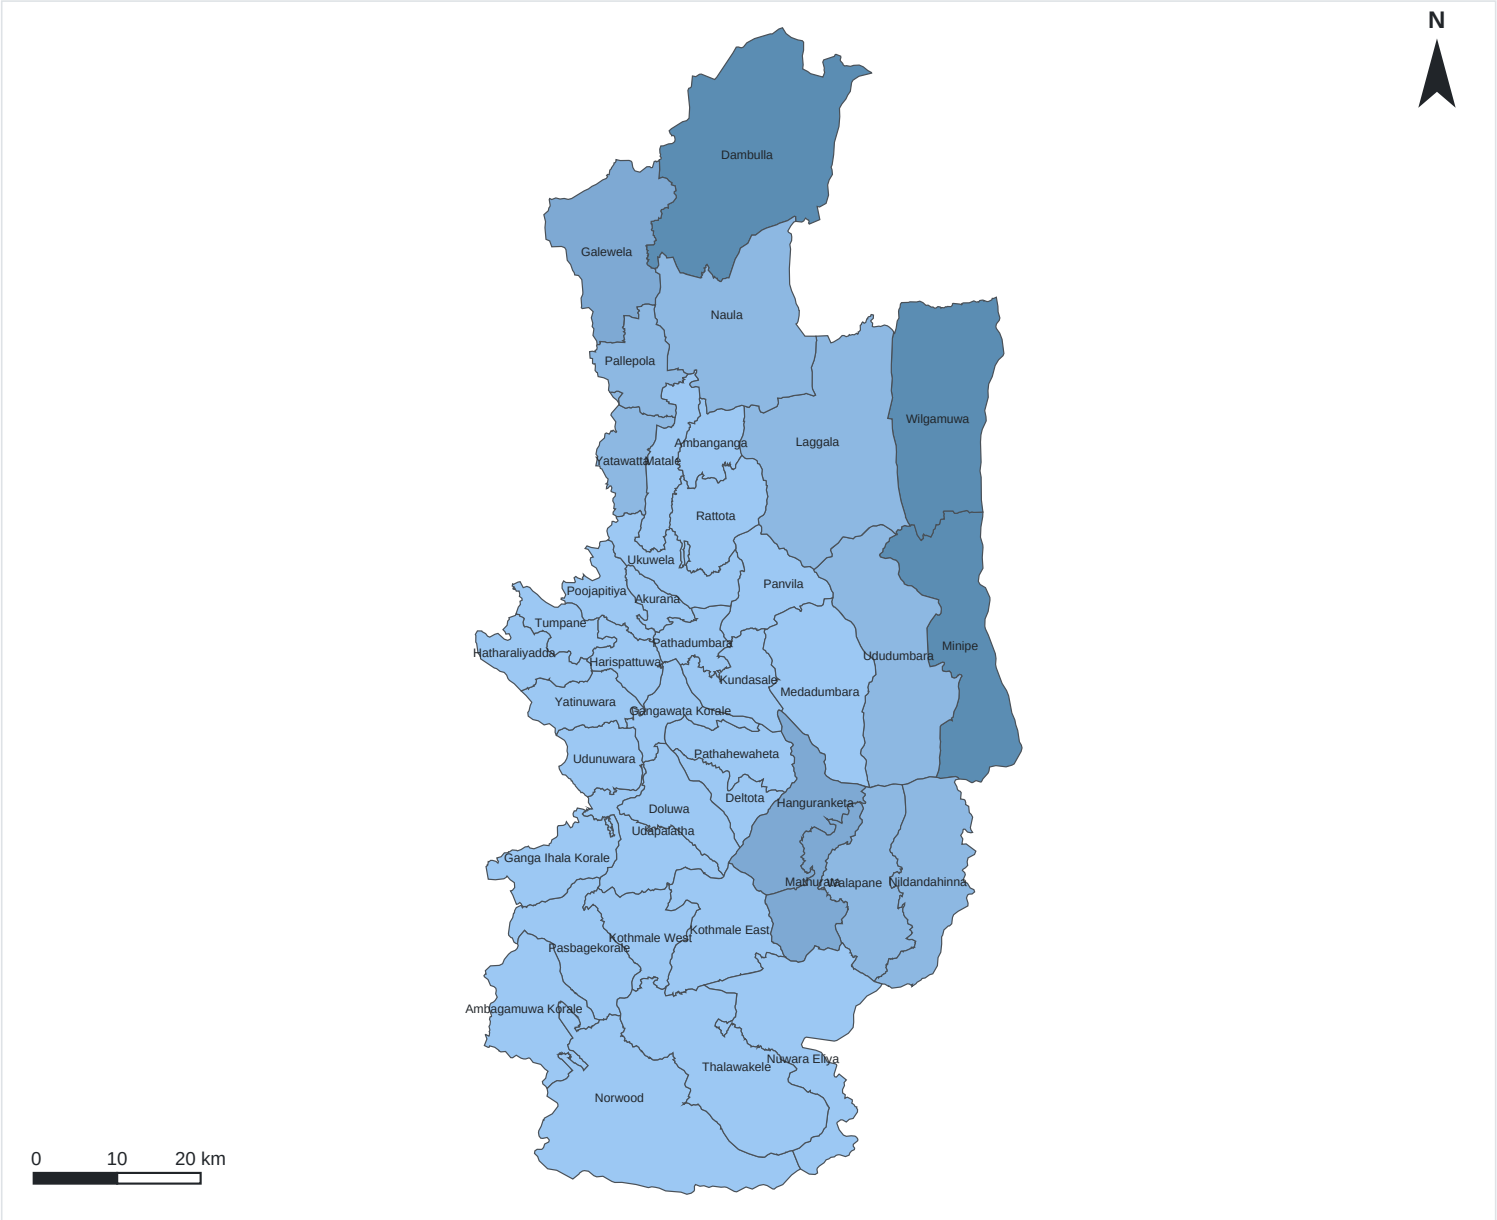

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of hazard.

Exposure - Agriculture Sector / Paddy - Flood

Central Province | 2021-2025 | Official track
Profile PADDY_FLOOD_CEN_V2 (version 2) | exposure index of each DS division

Exposure level			
High	0.75-1.00	3	
Moderate	0.50-0.75	3	
Low	0.25-0.50	7	
Very low	0.00-0.25	28	

Exposure index: this sector's weighted, province-normalised exposure variables (0-1). Band thresholds are fixed, not derived from the data.

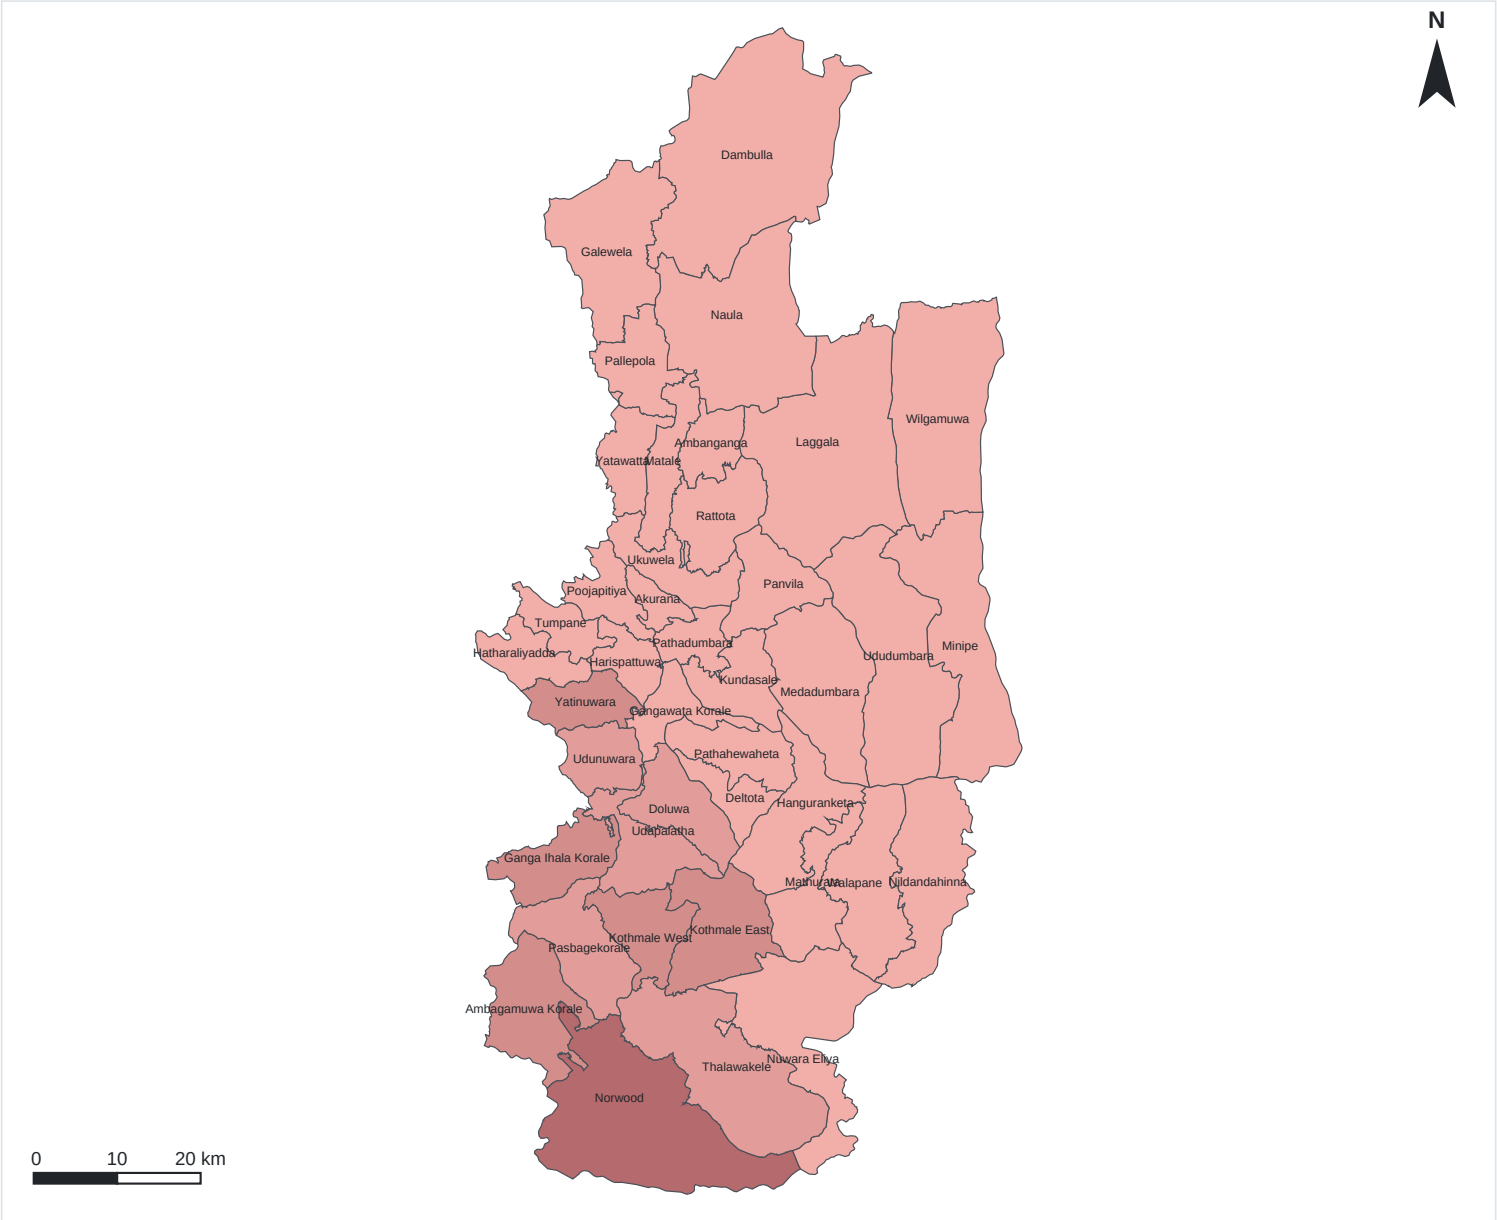

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of exposure.

Vulnerability - Agriculture Sector / Tea - Drought

Central Province | 2021-2025 | Official track
Profile TEA_DROUGHT_CEN_V2 (version 2) | vulnerability index of each DS division

Vulnerability level			
High	0.75-1.00	1	
Moderate	0.50-0.75	5	
Low	0.25-0.50	5	
Very low	0.00-0.25	30	

Vulnerability index: hazard x exposure, rescaled 0-1 within the province. Band thresholds are fixed, not derived from the data.

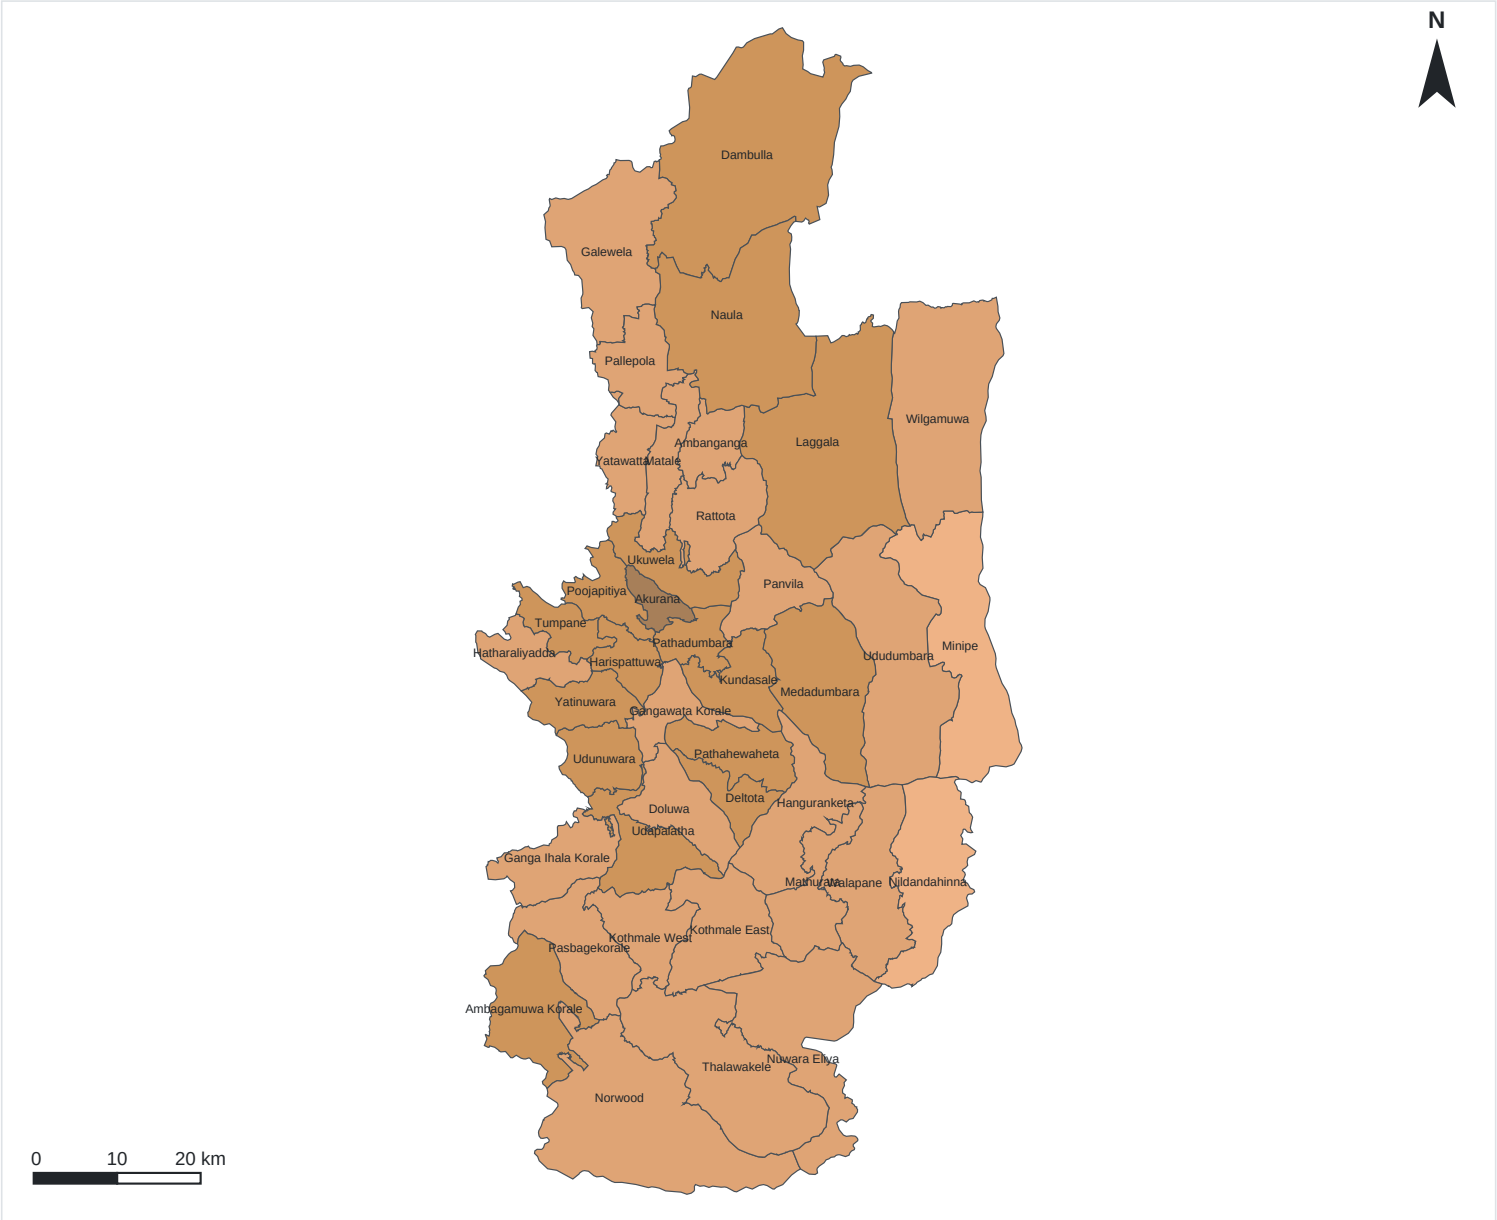

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of vulnerability.

Hazard - Agriculture Sector / Tea - Drought

Central Province | 2021-2025 | Official track
Profile TEA_DROUGHT_CEN_V2 (version 2) | hazard index of each DS division

Hazard level			
High	0.75-1.00	1	
Moderate	0.50-0.75	16	
Low	0.25-0.50	22	
Very low	0.00-0.25	2	

Hazard index: this sector profile's weighted, province-normalised hazard variables (0-1). Band thresholds are fixed, not derived from the data.

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of hazard.

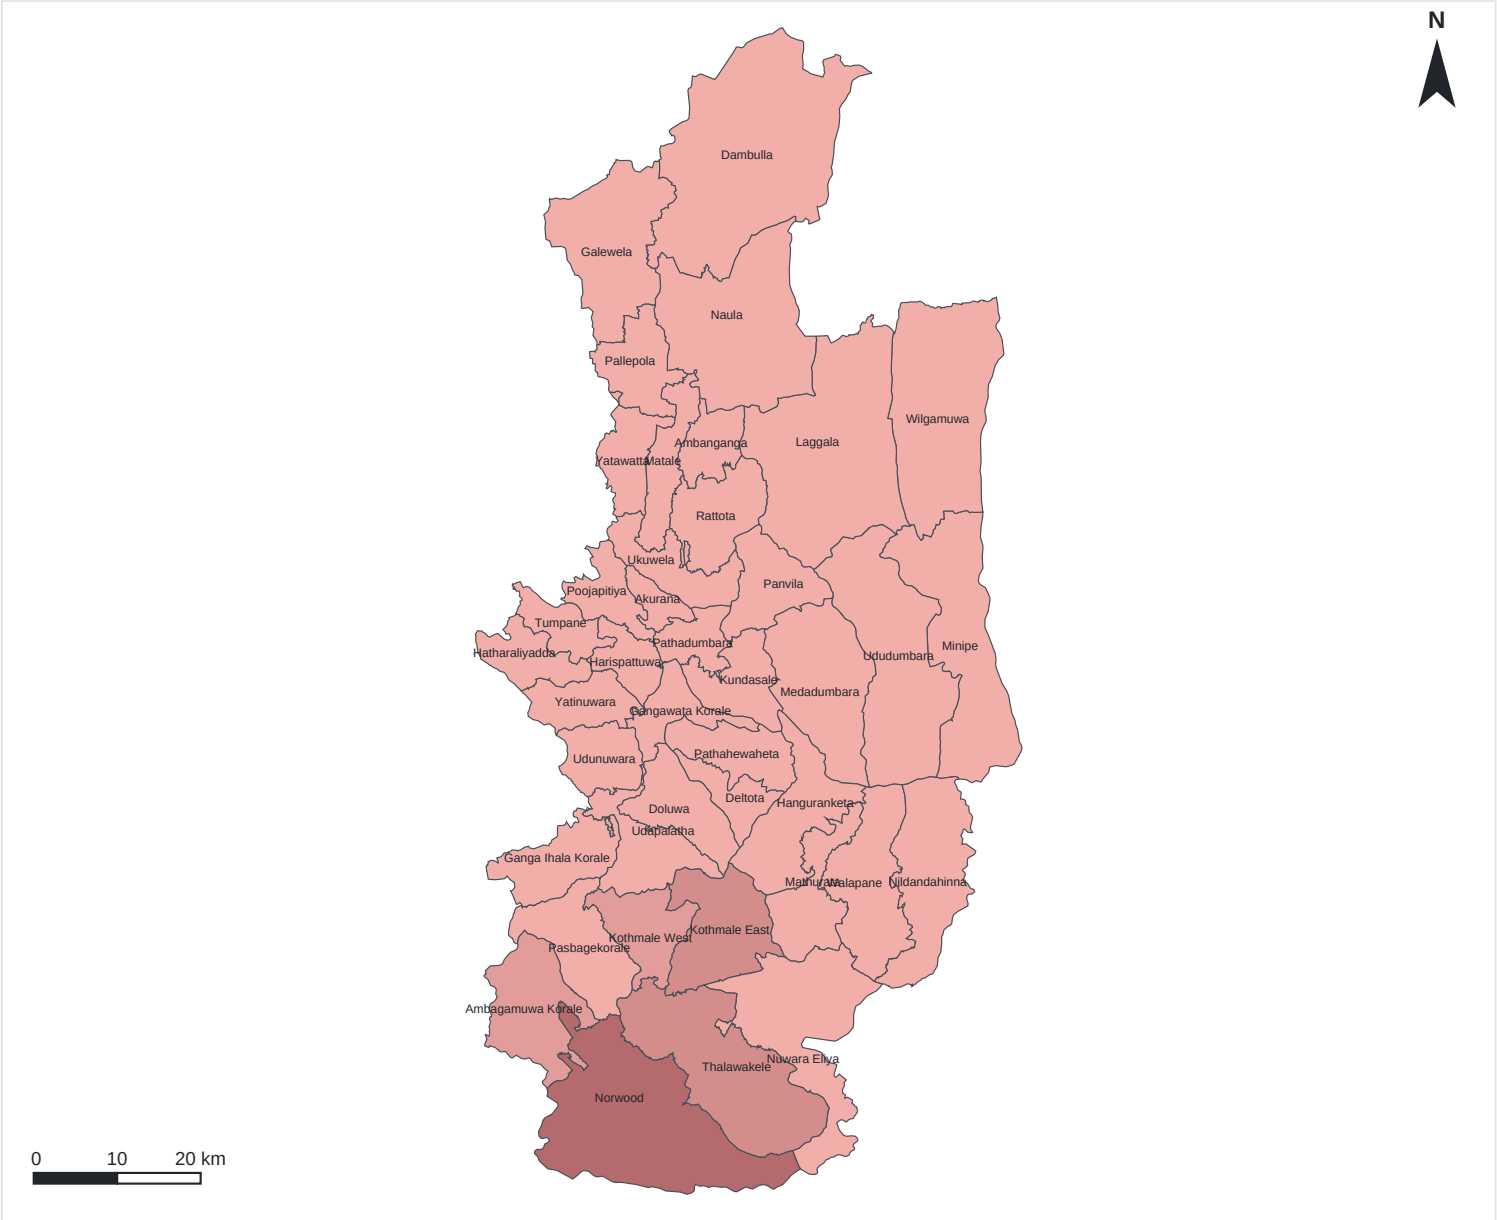

Central Province | 2021-2025 | Official track
Profile TEA_DROUGHT_CEN_V2 (version 2) | exposure index of each DS division

Profile TEA_DROUGHT_CEN_V2 (version 2) | exposure index of each DS division

Vulnerability - Agriculture Sector / Tea - Flood

Central Province | 2021-2025 | Official track
Profile TEA_FLOOD_CEN_V2 (version 2) | vulnerability index of each DS division

Vulnerability level			
High	0.75-1.00	1	
Moderate	0.50-0.75	2	
Low	0.25-0.50	2	
Very low	0.00-0.25	36	

Vulnerability index: hazard x exposure, rescaled 0-1 within the province. Band thresholds are fixed, not derived from the data.

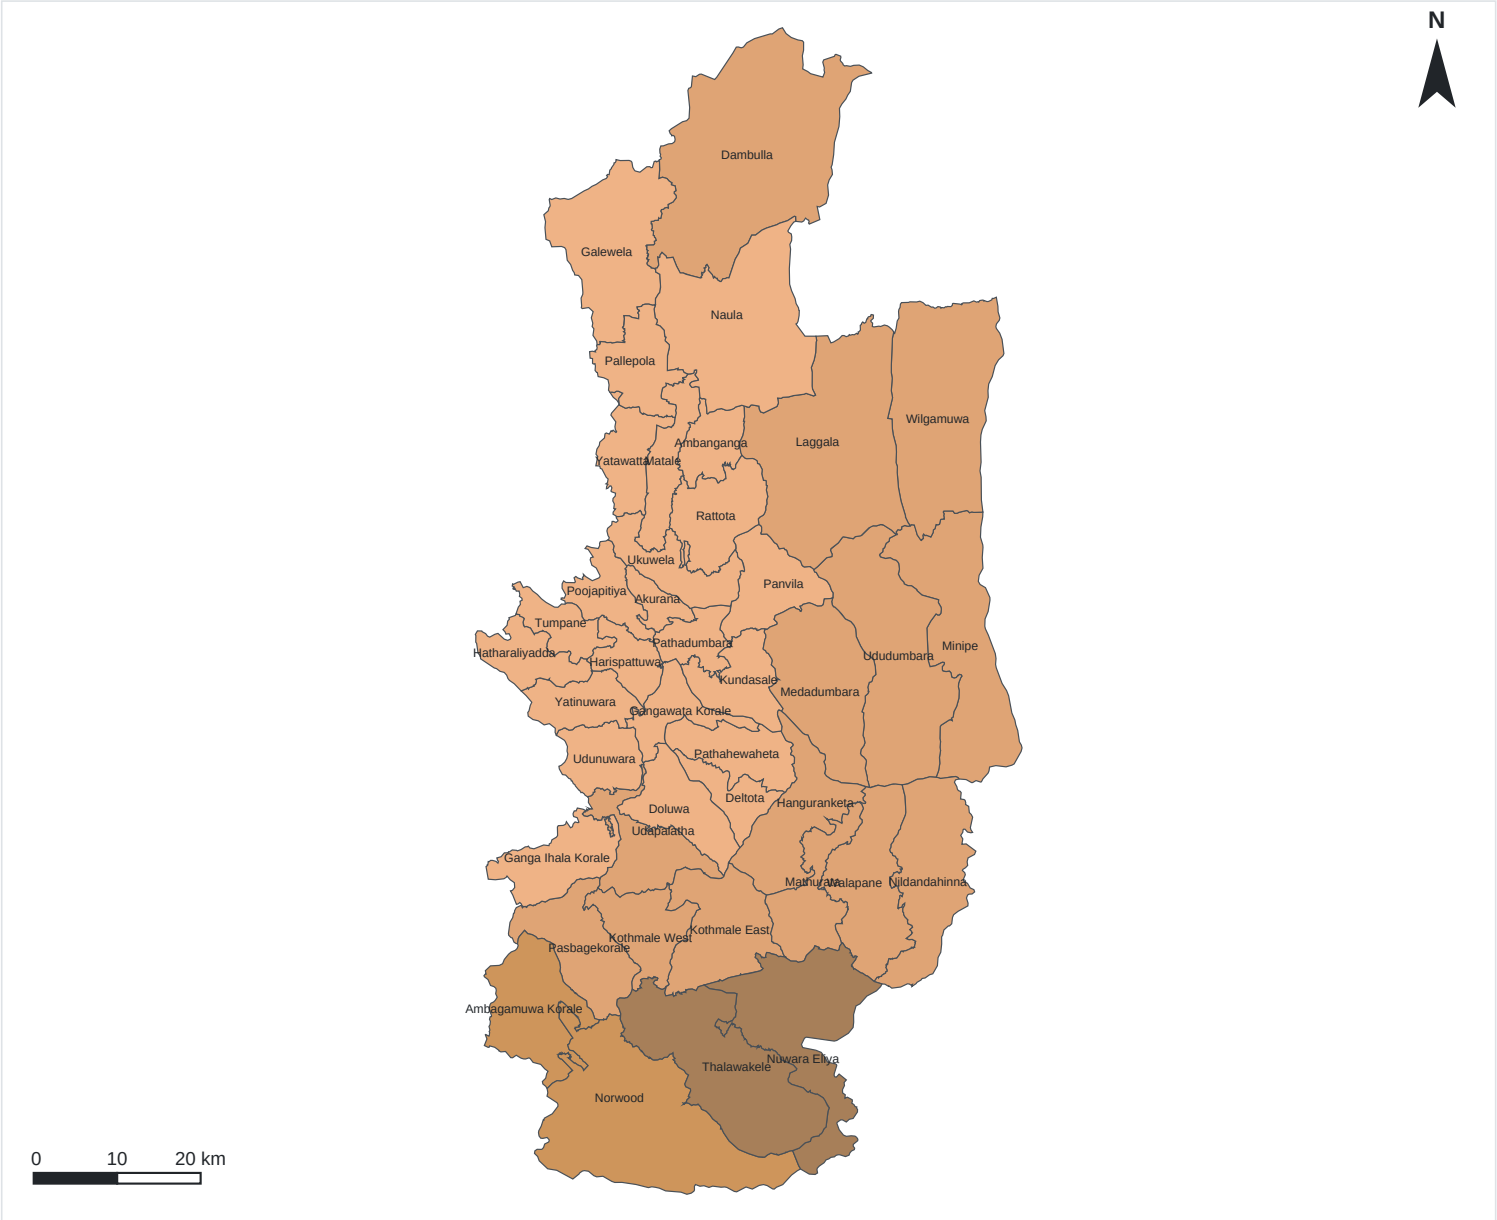

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of vulnerability.

Hazard - Agriculture Sector / Tea - Flood

Central Province | 2021-2025 | Official track
Profile TEA_FLOOD_CEN_V2 (version 2) | hazard index of each DS division

Hazard level			
	High	0.75-1.00	2
	Moderate	0.50-0.75	2
	Low	0.25-0.50	14
	Very low	0.00-0.25	23

Hazard index: this sector profile's weighted, province-normalised hazard variables (0-1). Band thresholds are fixed, not derived from the data.

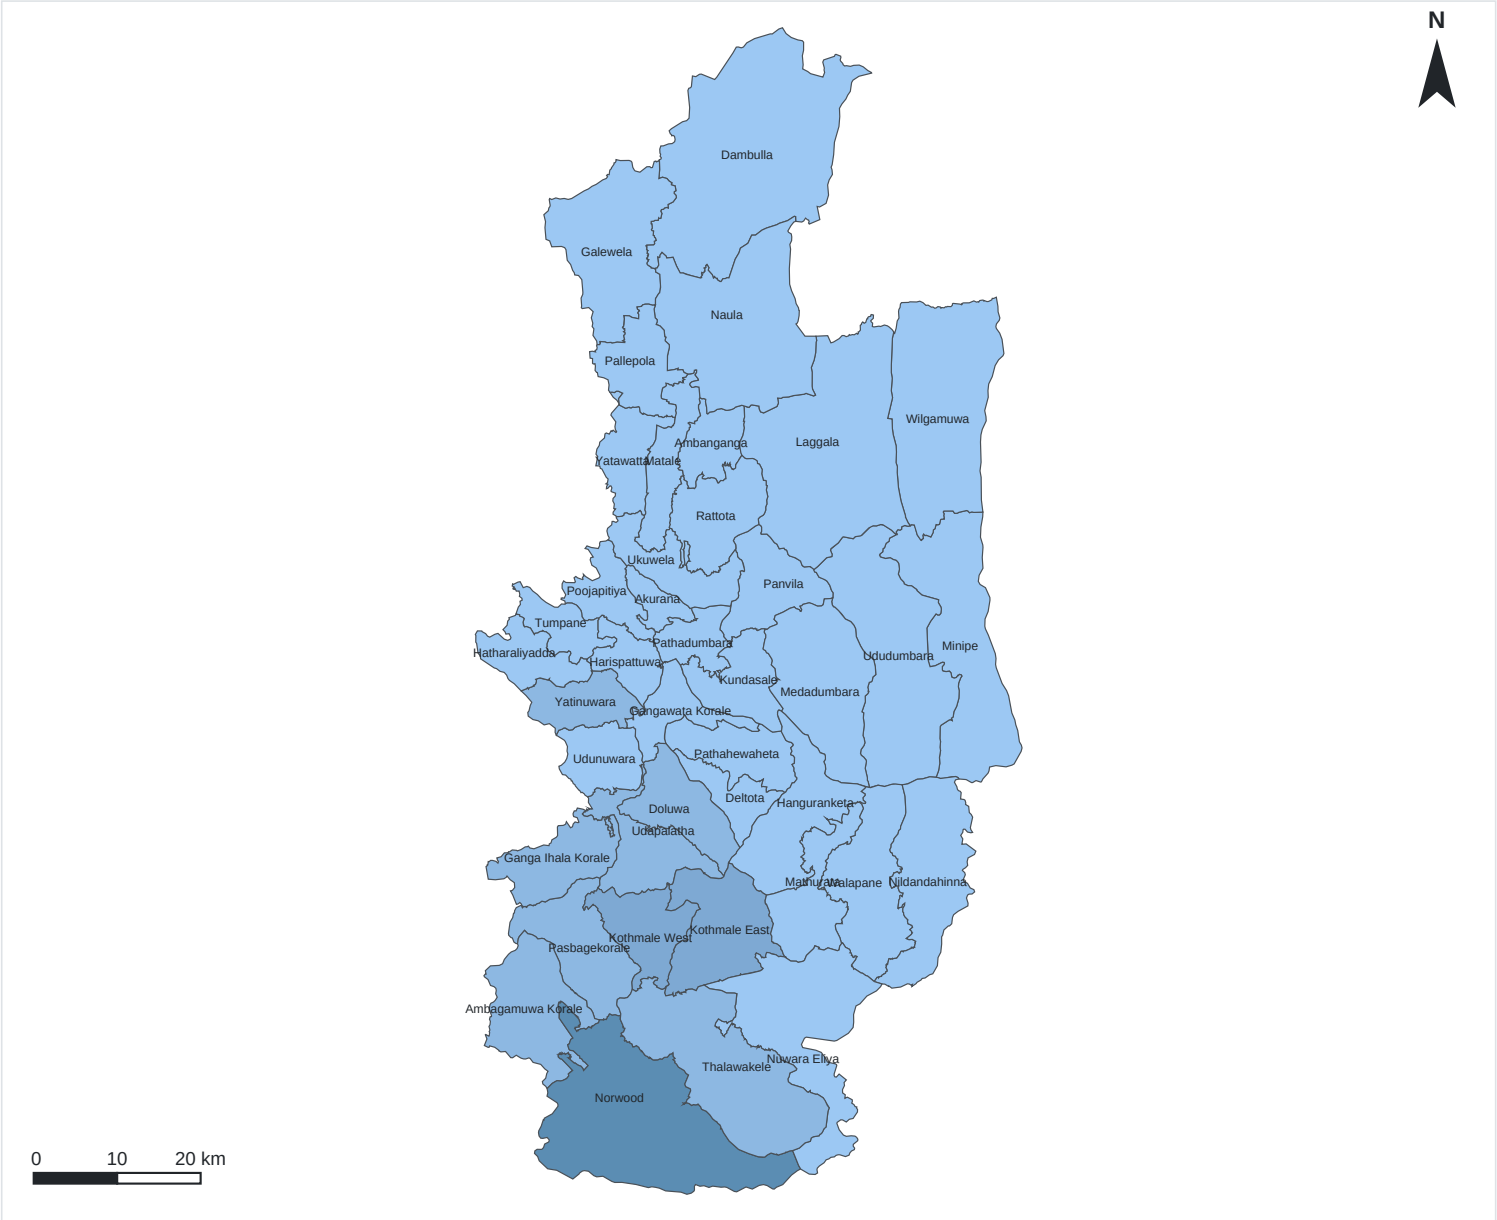

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of hazard.

Exposure - Agriculture Sector / Tea - Flood

Central Province | 2021-2025 | Official track
Profile TEA_FLOOD_CEN_V2 (version 2) | exposure index of each DS division

Exposure level

High	0.75-1.00	1
Moderate	0.50-0.75	2
Low	0.25-0.50	7
Very low	0.00-0.25	31

Exposure index: this sector's weighted, province-normalised exposure variables (0-1). Band thresholds are fixed, not derived from the data.

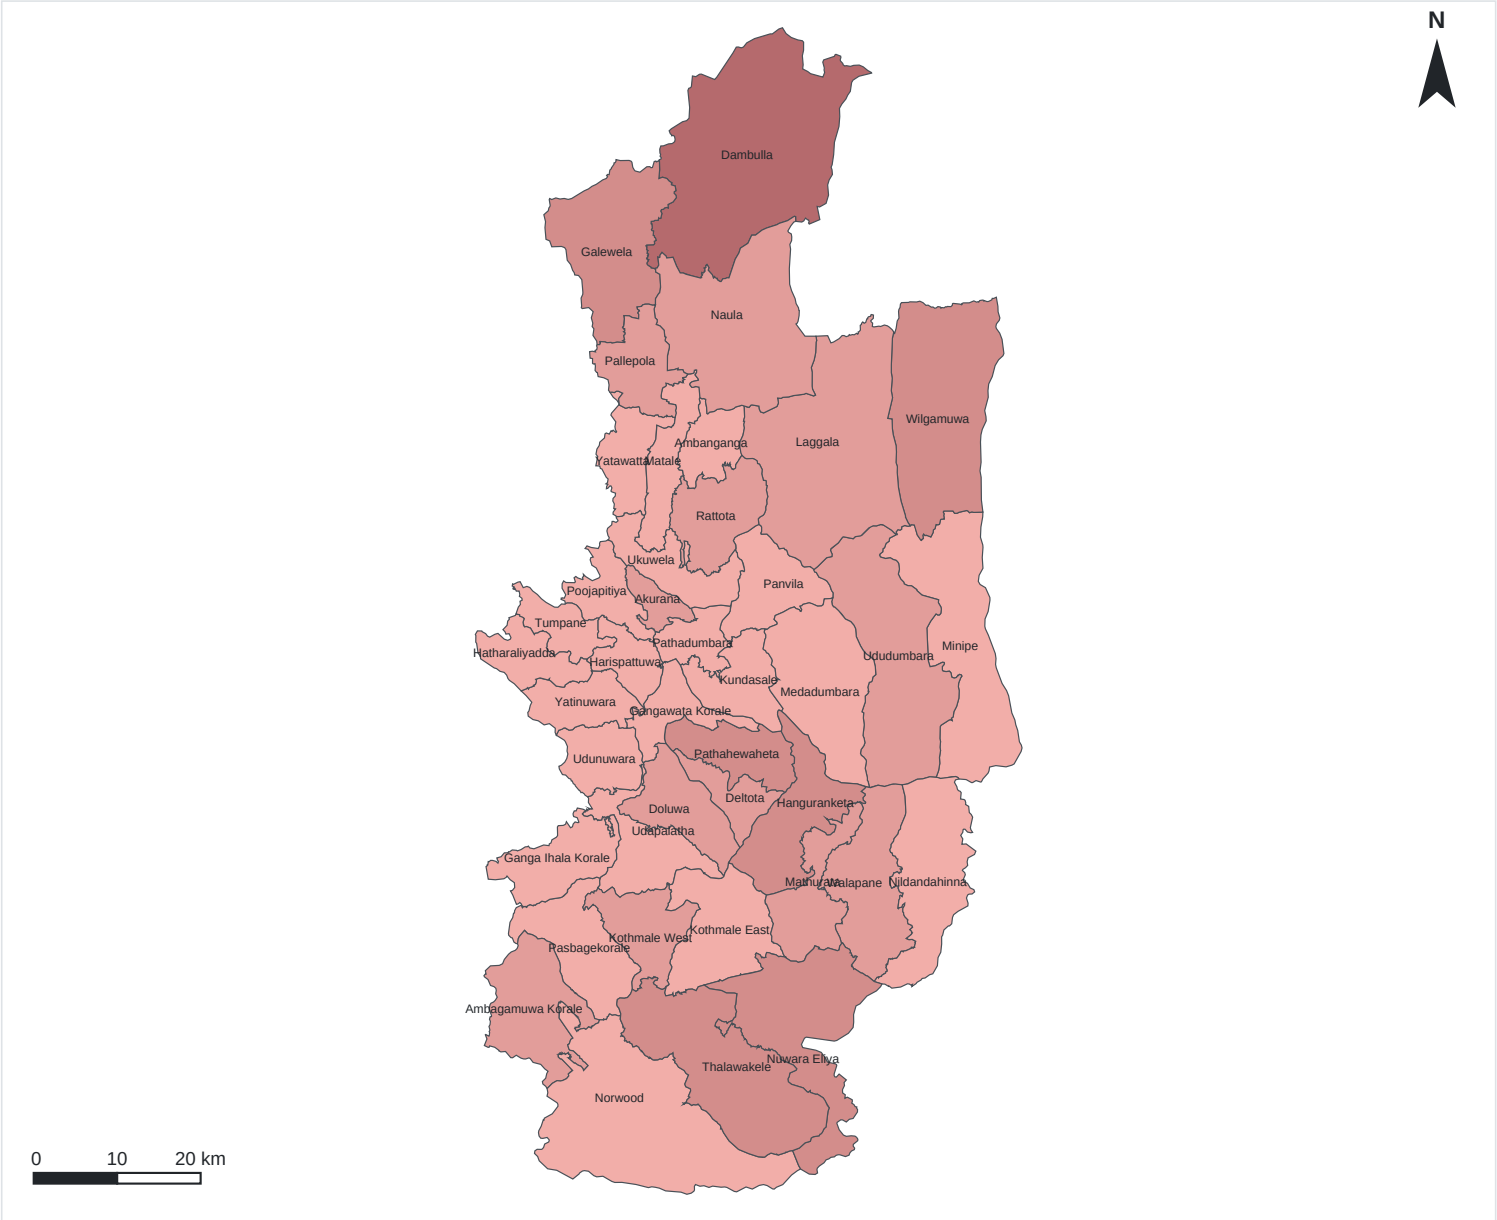

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of exposure.

Vulnerability - Agriculture Sector / Vegetable & Other Field Crops - Drought

Central Province | 2021-2025 | Official track
Profile VEGETABLE_OTHER_FIELD_CROPS_DROUGHT_CEN_V2 (version 2) | vulnerability index of each DS division

Vulnerability level			
High	0.75-1.00	1	
Moderate	0.50-0.75	6	
Low	0.25-0.50	12	
Very low	0.00-0.25	22	

Vulnerability index: hazard x exposure, rescaled 0-1 within the province. Band thresholds are fixed, not derived from the data.

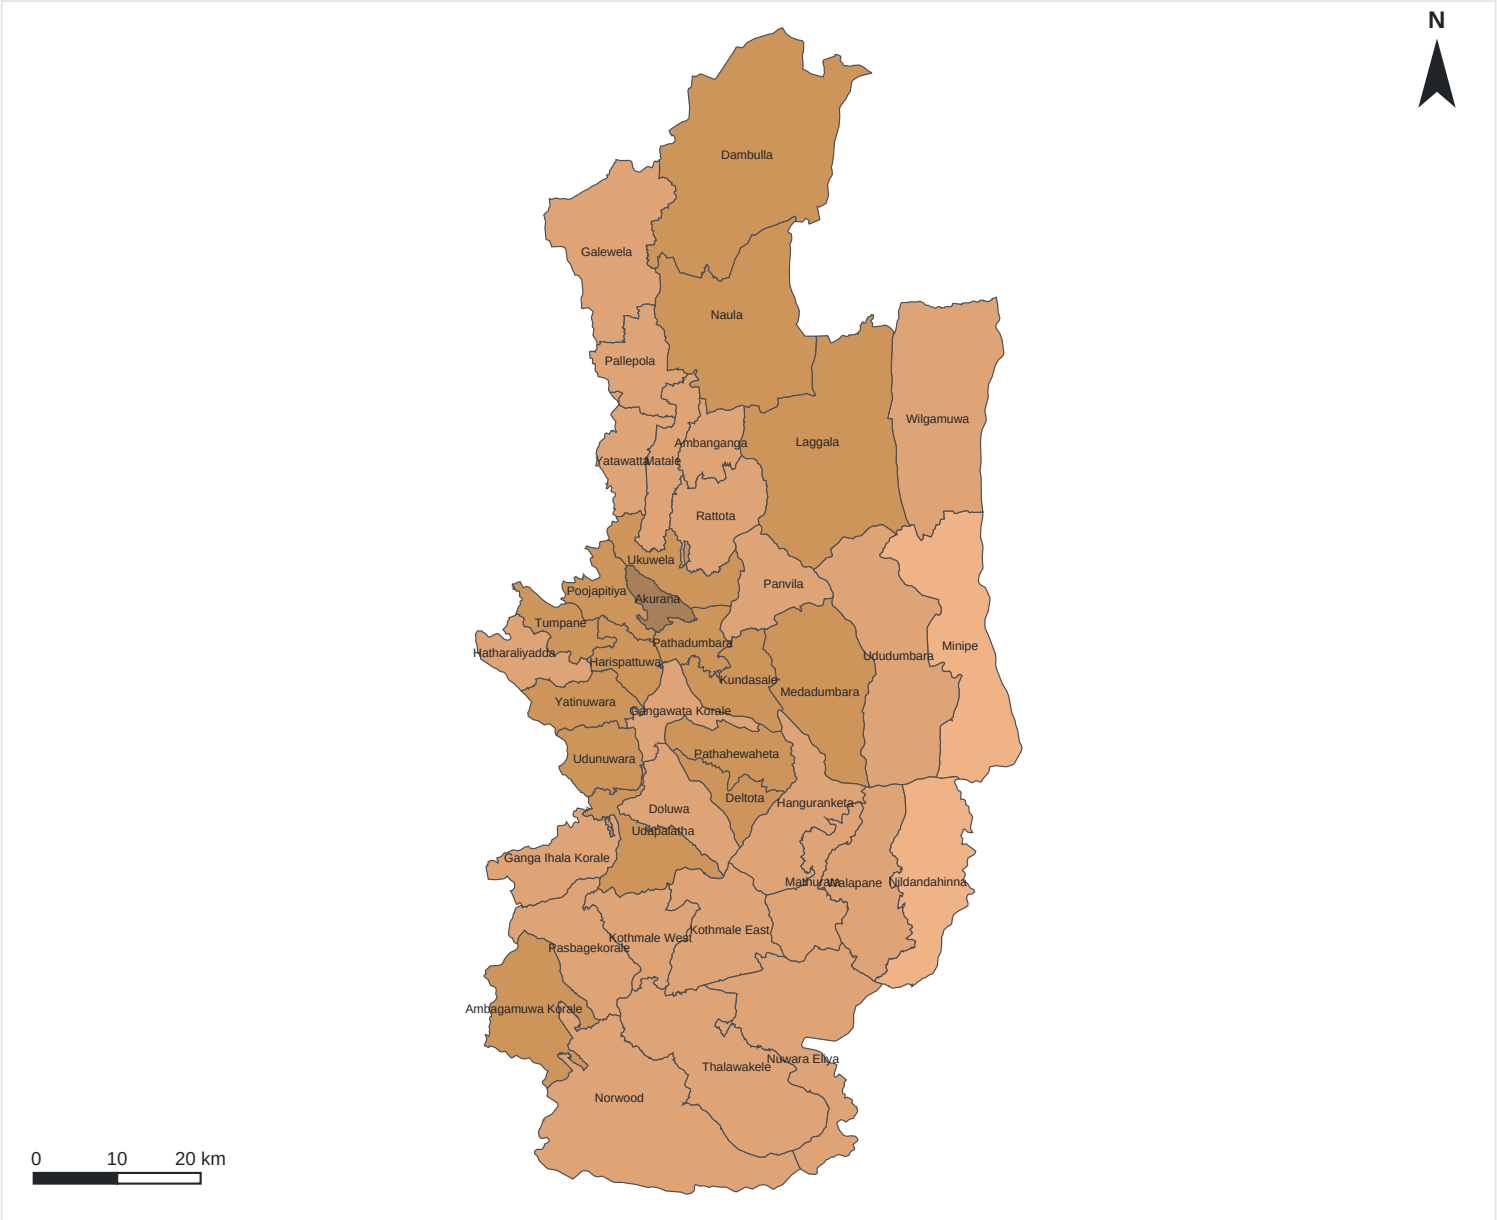

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of vulnerability.

Hazard - Agriculture Sector / Vegetable & Other Field Crops - Drought

Central Province | 2021-2025 | Official track
Profile VEGETABLE_OTHER_FIELD_CROPS_DROUGHT_CEN_V2 (version 2) | hazard index of each DS division

Hazard level			
	High	0.75-1.00	1
	Moderate	0.50-0.75	16
	Low	0.25-0.50	22
	Very low	0.00-0.25	2

Hazard index: this sector profile's weighted, province-normalised hazard variables (0-1). Band thresholds are fixed, not derived from the data.

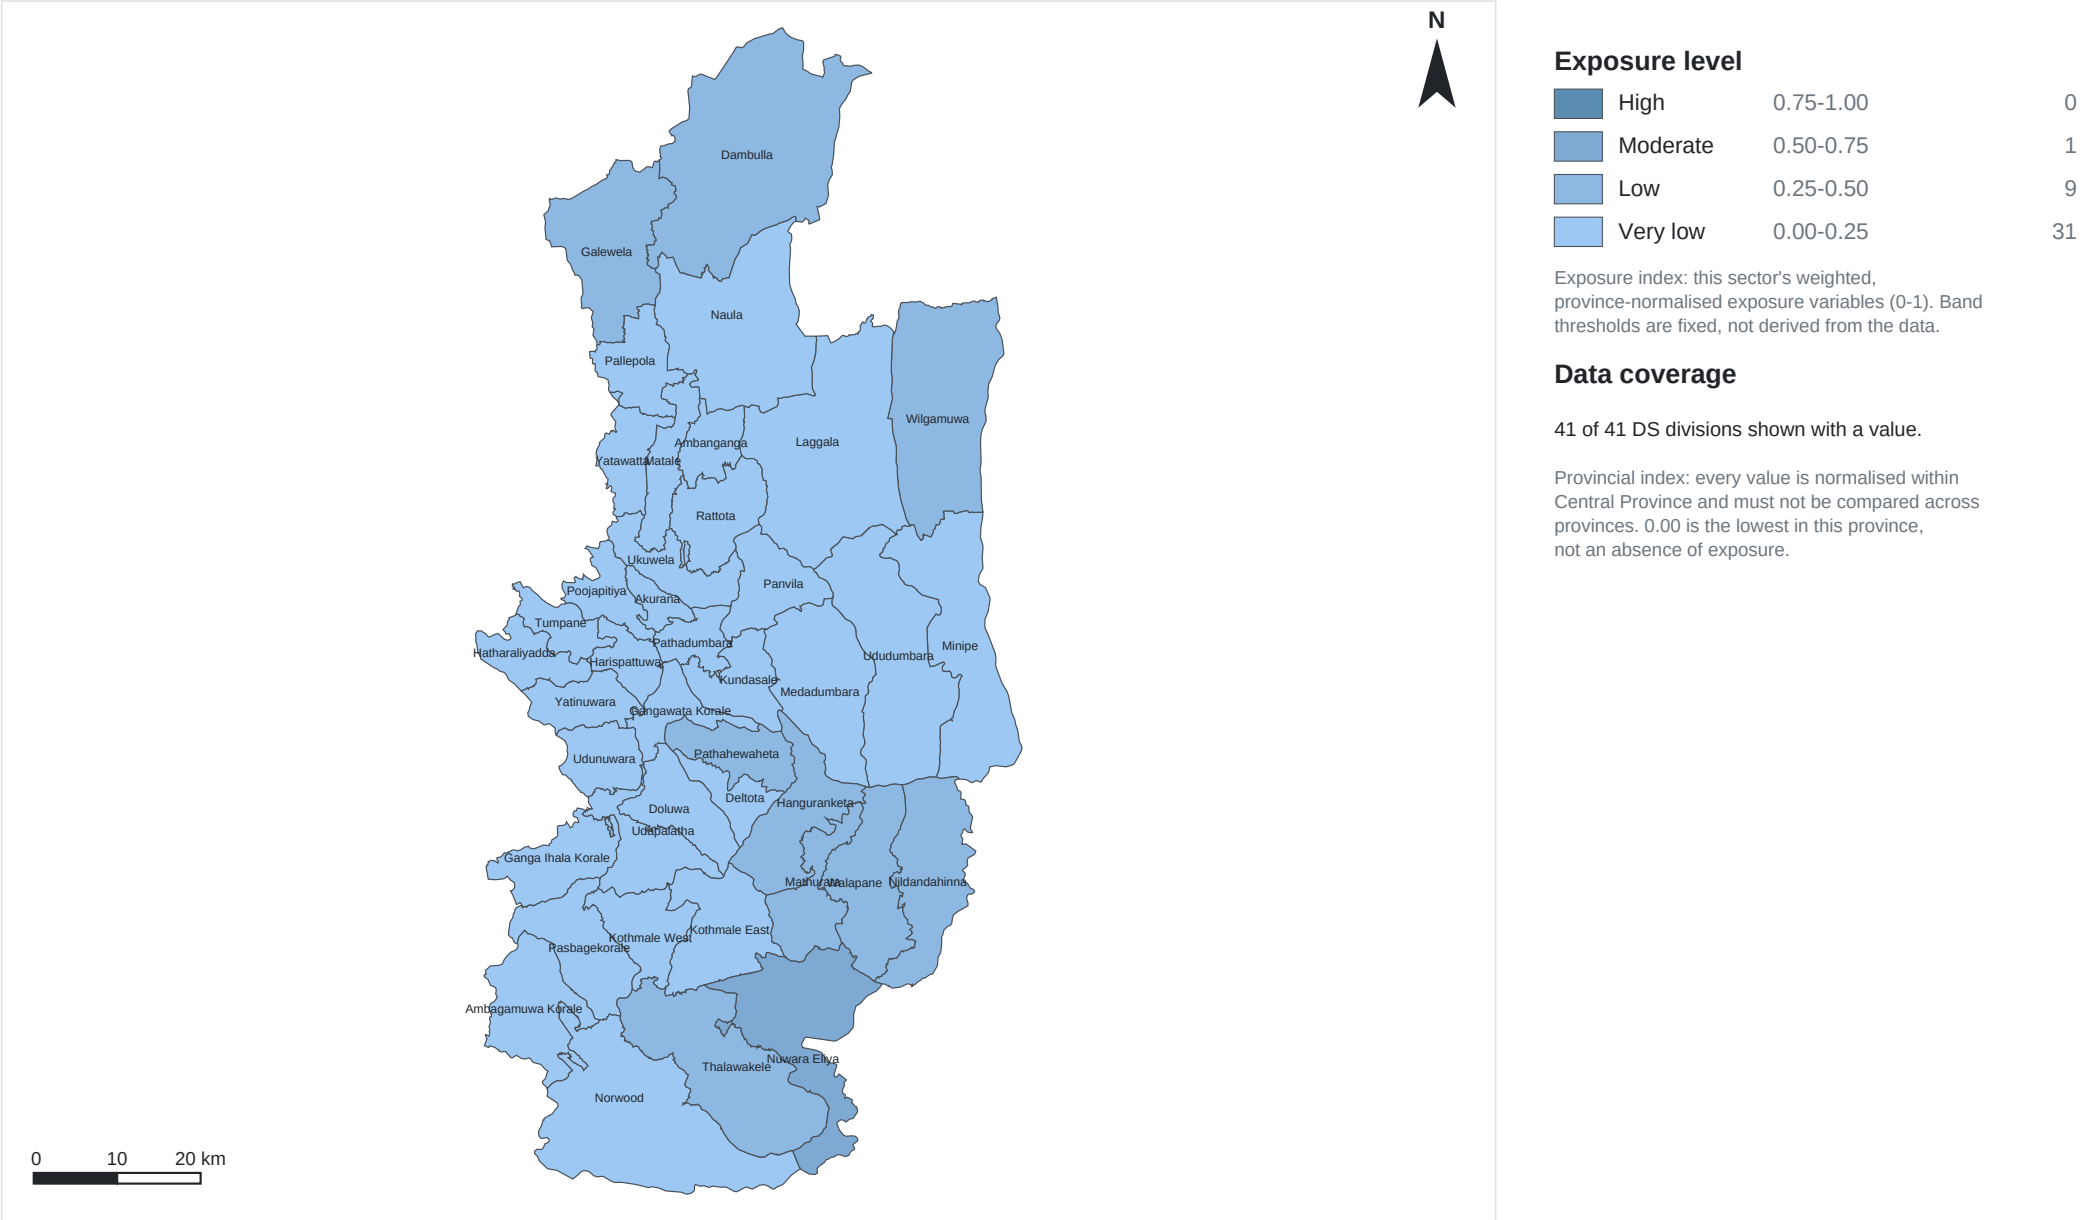

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of hazard.

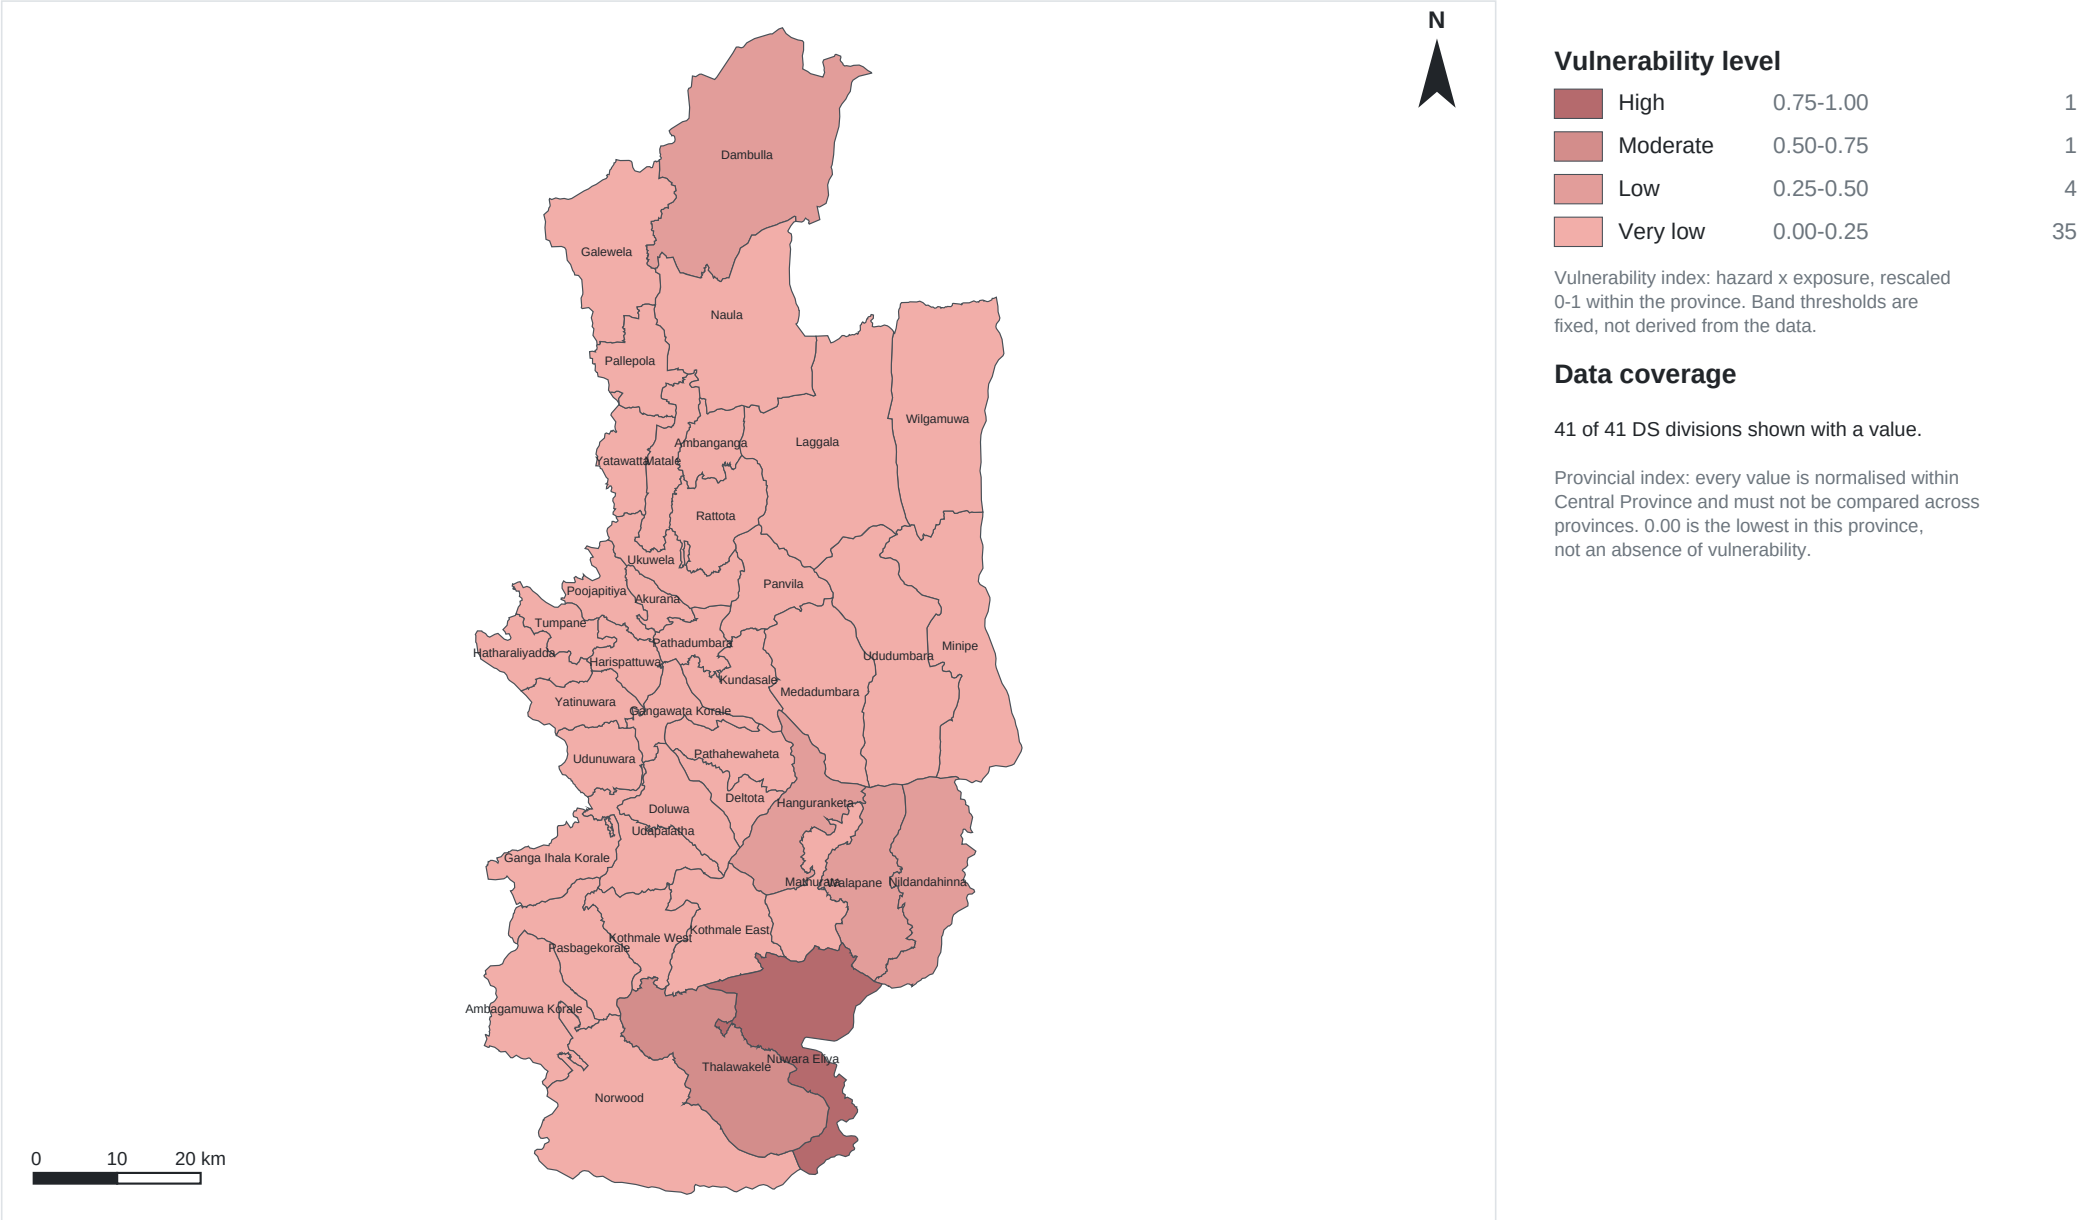

Exposure - Agriculture Sector / Vegetable & Other Field Crops - Drought

Central Province | 2021-2025 | Official track
Profile VEGETABLE_OTHER_FIELD_CROPS_DROUGHT_CEN_V2 (version 2) | exposure index of each DS division

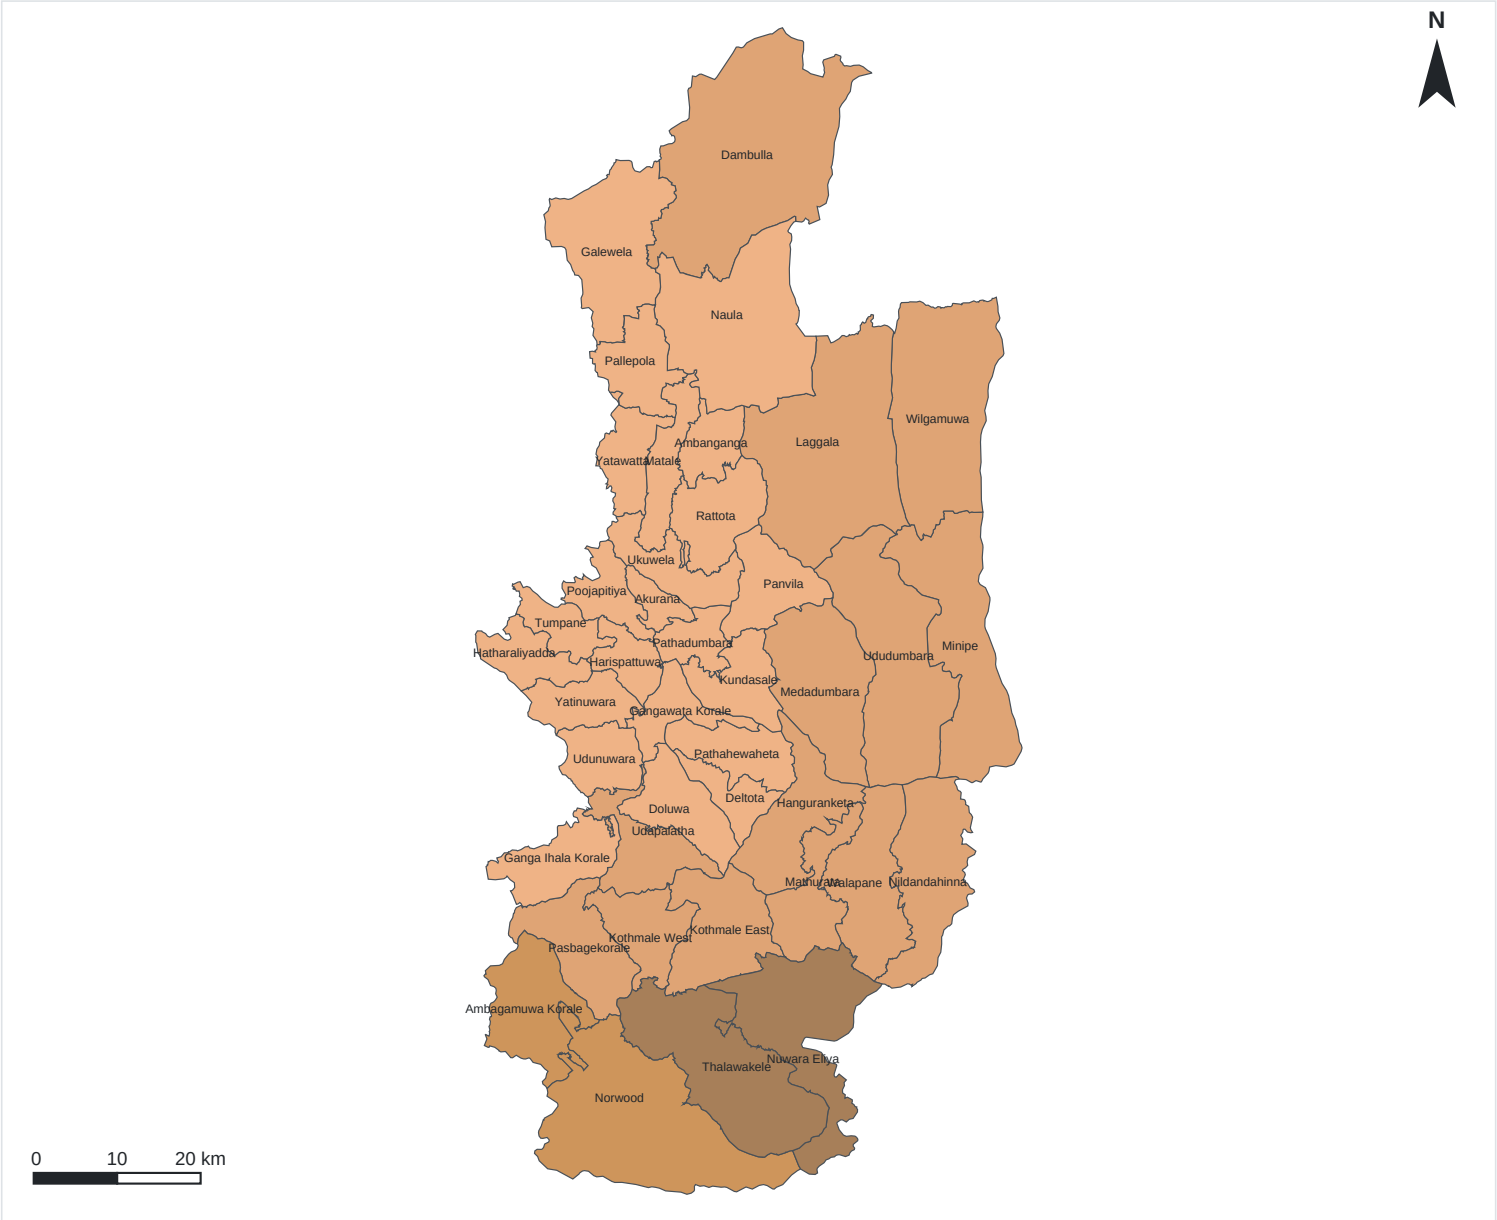

Vulnerability - Agriculture Sector / Vegetable & Other Field Crops - Flood

Central Province | 2021-2025 | Official track
Profile VEGETABLE_OTHER_FIELD_CROPS_FLOOD_CEN_V2 (version 2) | vulnerability index of each DS division

Hazard - Agriculture Sector / Vegetable & Other Field Crops - Flood

Central Province | 2021-2025 | Official track
Profile VEGETABLE_OTHER_FIELD_CROPS_FLOOD_CEN_V2 (version 2) | hazard index of each DS division

Hazard level			
	High	0.75-1.00	2
	Moderate	0.50-0.75	2
	Low	0.25-0.50	14
	Very low	0.00-0.25	23

Hazard index: this sector profile's weighted, province-normalised hazard variables (0-1). Band thresholds are fixed, not derived from the data.

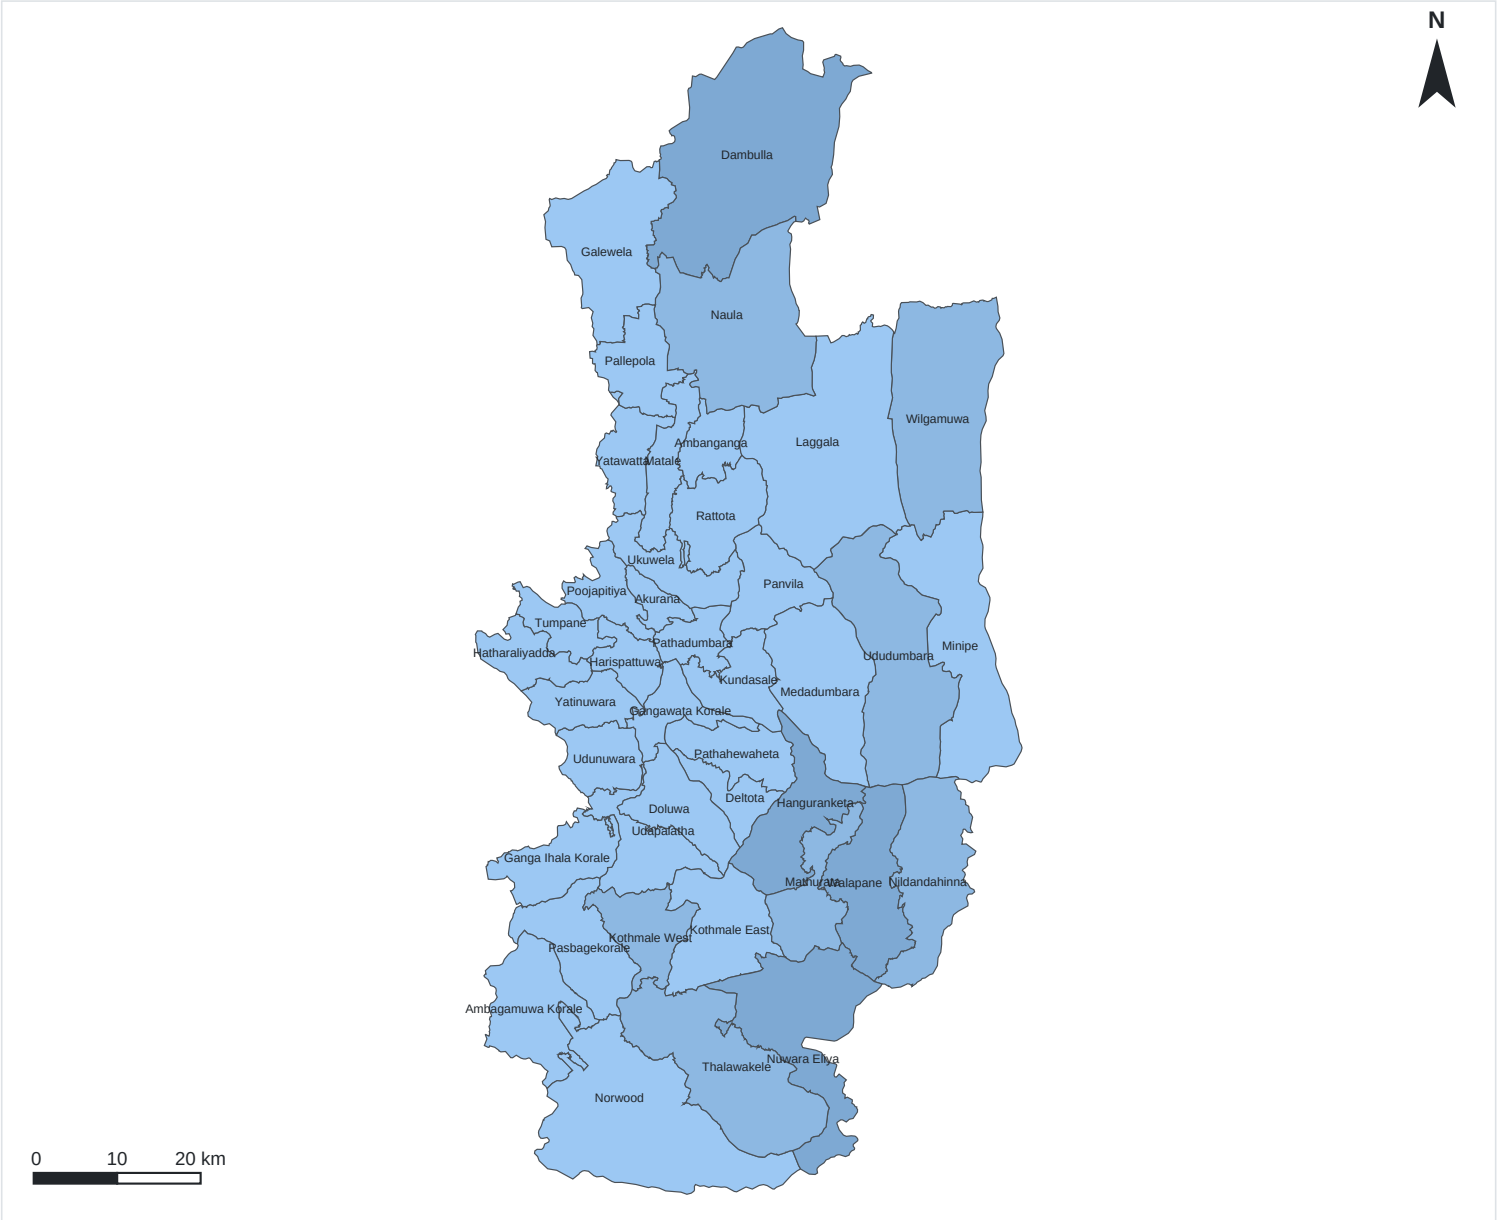

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of hazard.

Exposure - Agriculture Sector / Vegetable & Other Field Crops - Flood

Central Province | 2021-2025 | Official track
Profile VEGETABLE_OTHER_FIELD_CROPS_FLOOD_CEN_V2 (version 2) | exposure index of each DS division

Exposure level			
	High	0.75-1.00	0
	Moderate	0.50-0.75	4
	Low	0.25-0.50	7
	Very low	0.00-0.25	30

Exposure index: this sector's weighted, province-normalised exposure variables (0-1). Band thresholds are fixed, not derived from the data.

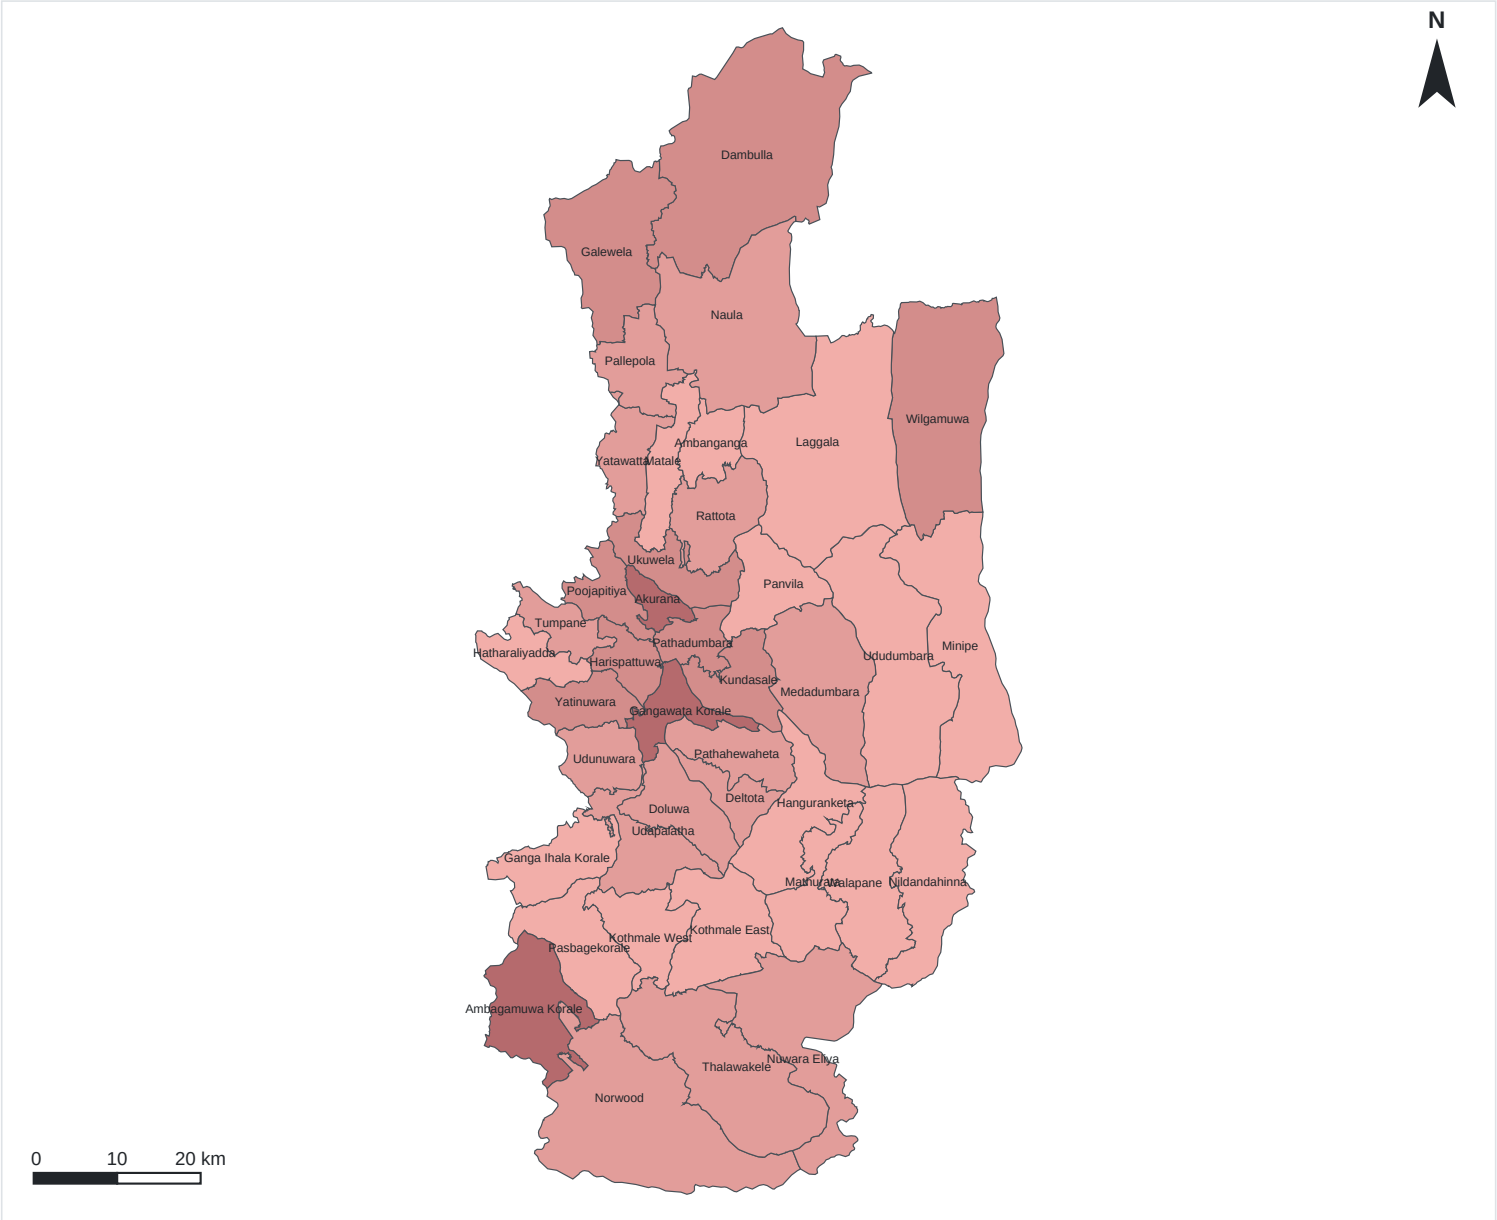

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of exposure.

Vulnerability - Human Settlements Sector - Drought

Central Province | 2021-2025 | Official track
Profile HUMAN_SETTLEMENTS_SECTOR_DROUGHT_CEN_V2 (version 2) | vulnerability index of each DS division

Vulnerability level			
High	0.75-1.00		3
Moderate	0.50-0.75		9
Low	0.25-0.50		14
Very low	0.00-0.25		15

Vulnerability index: hazard x exposure, rescaled 0-1 within the province. Band thresholds are fixed, not derived from the data.

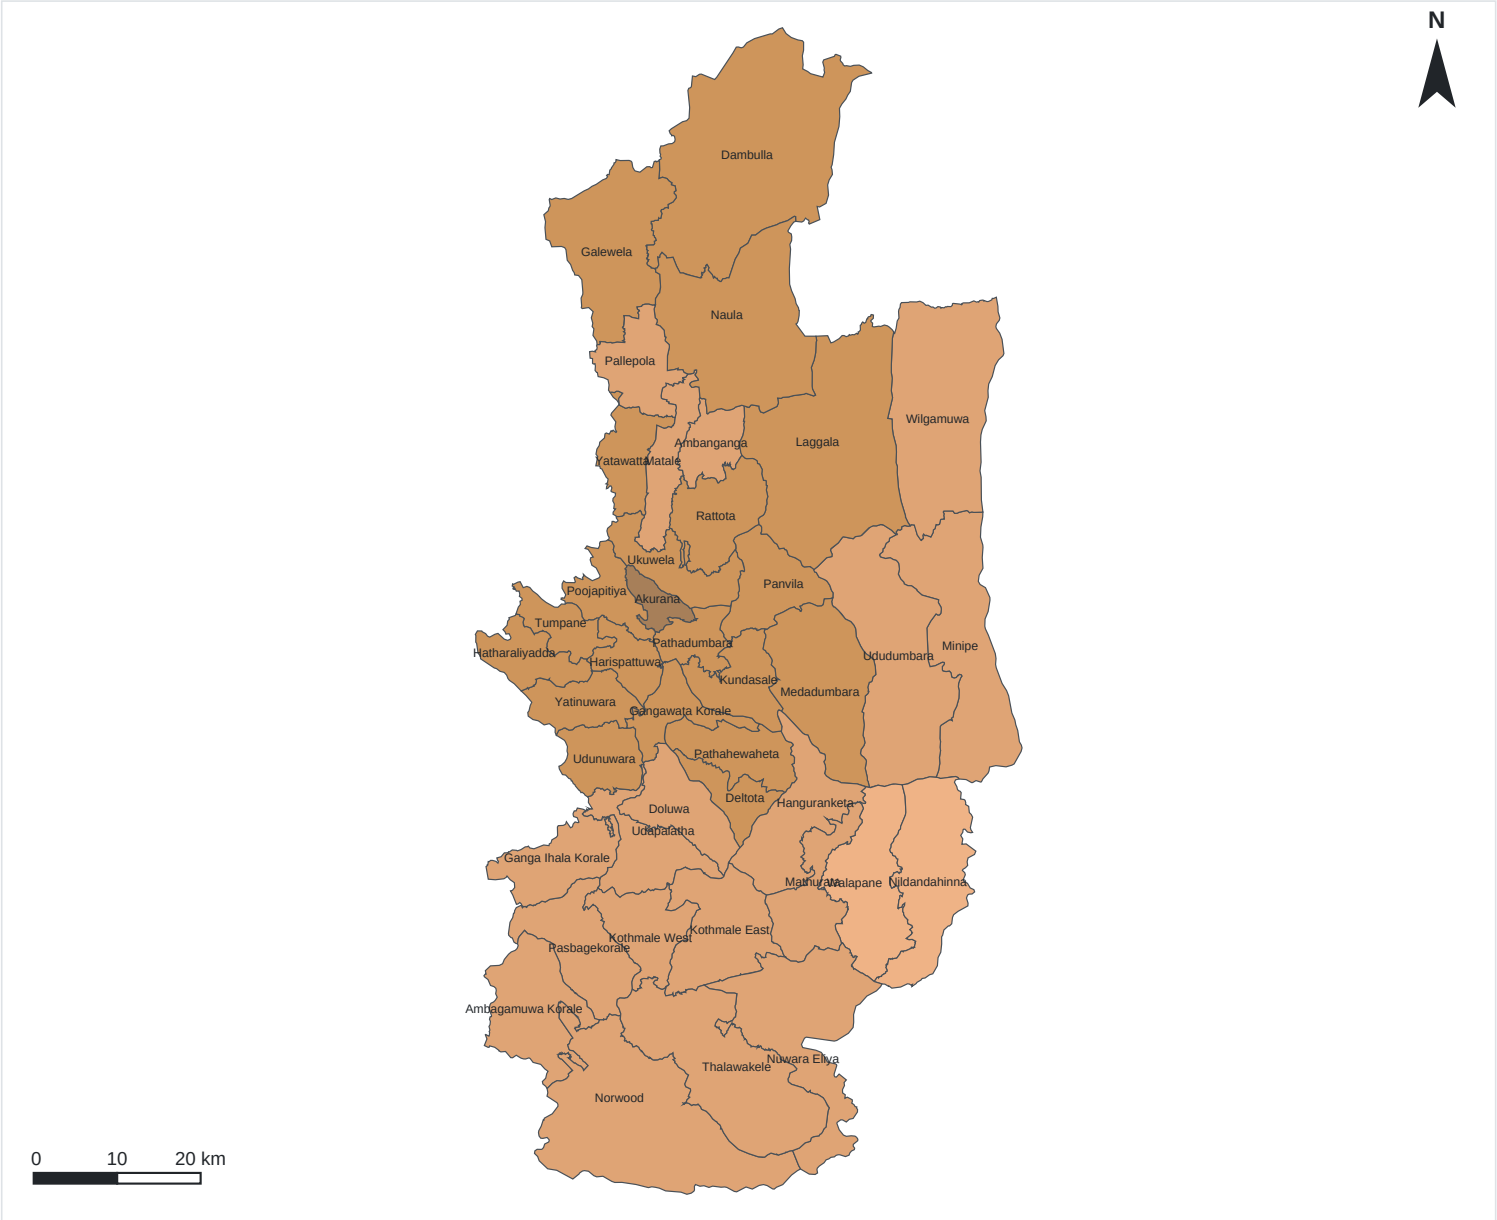

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of vulnerability.

Hazard - Human Settlements Sector - Drought

Central Province | 2021-2025 | Official track
Profile HUMAN_SETTLEMENTS_SECTOR_DROUGHT_CEN_V2 (version 2) | hazard index of each DS division

Hazard level			
High	0.75-1.00	1	
Moderate	0.50-0.75	20	
Low	0.25-0.50	18	
Very low	0.00-0.25	2	

Hazard index: this sector profile's weighted, province-normalised hazard variables (0-1). Band thresholds are fixed, not derived from the data.

Data coverage

41 of 41 DS divisions shown with a value.

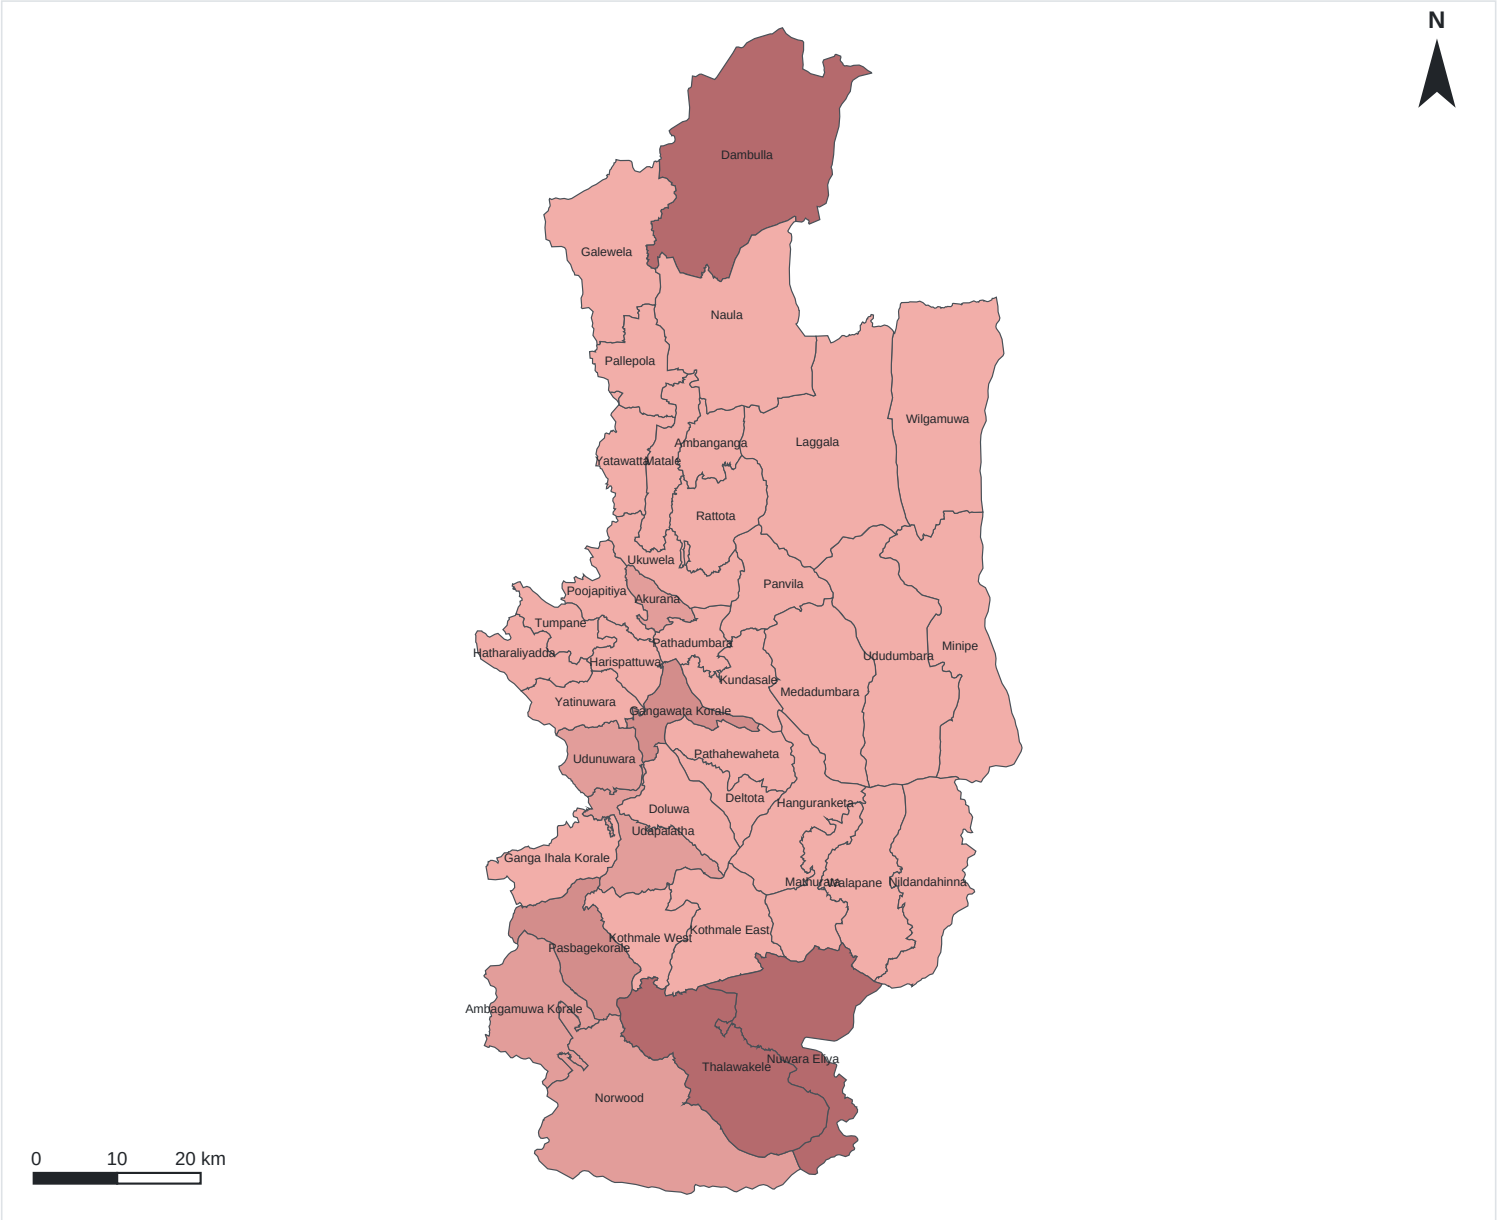

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of hazard.

Profile HUMAN_SETTLEMENTS_SECTOR_DROUGHT_CEN_V2 (version 2) | exposure index of each DS division

Vulnerability - Human Settlements Sector - Flood

Central Province | 2021-2025 | Official track
Profile HUMAN_SETTLEMENTS_SECTOR_FLOOD_CEN_V2 (version 2) | vulnerability index of each DS division

Vulnerability level

	High	0.75-1.00	3
	Moderate	0.50-0.75	2
	Low	0.25-0.50	5
	Very low	0.00-0.25	31

Vulnerability index: hazard x exposure, rescaled 0-1 within the province. Band thresholds are fixed, not derived from the data.

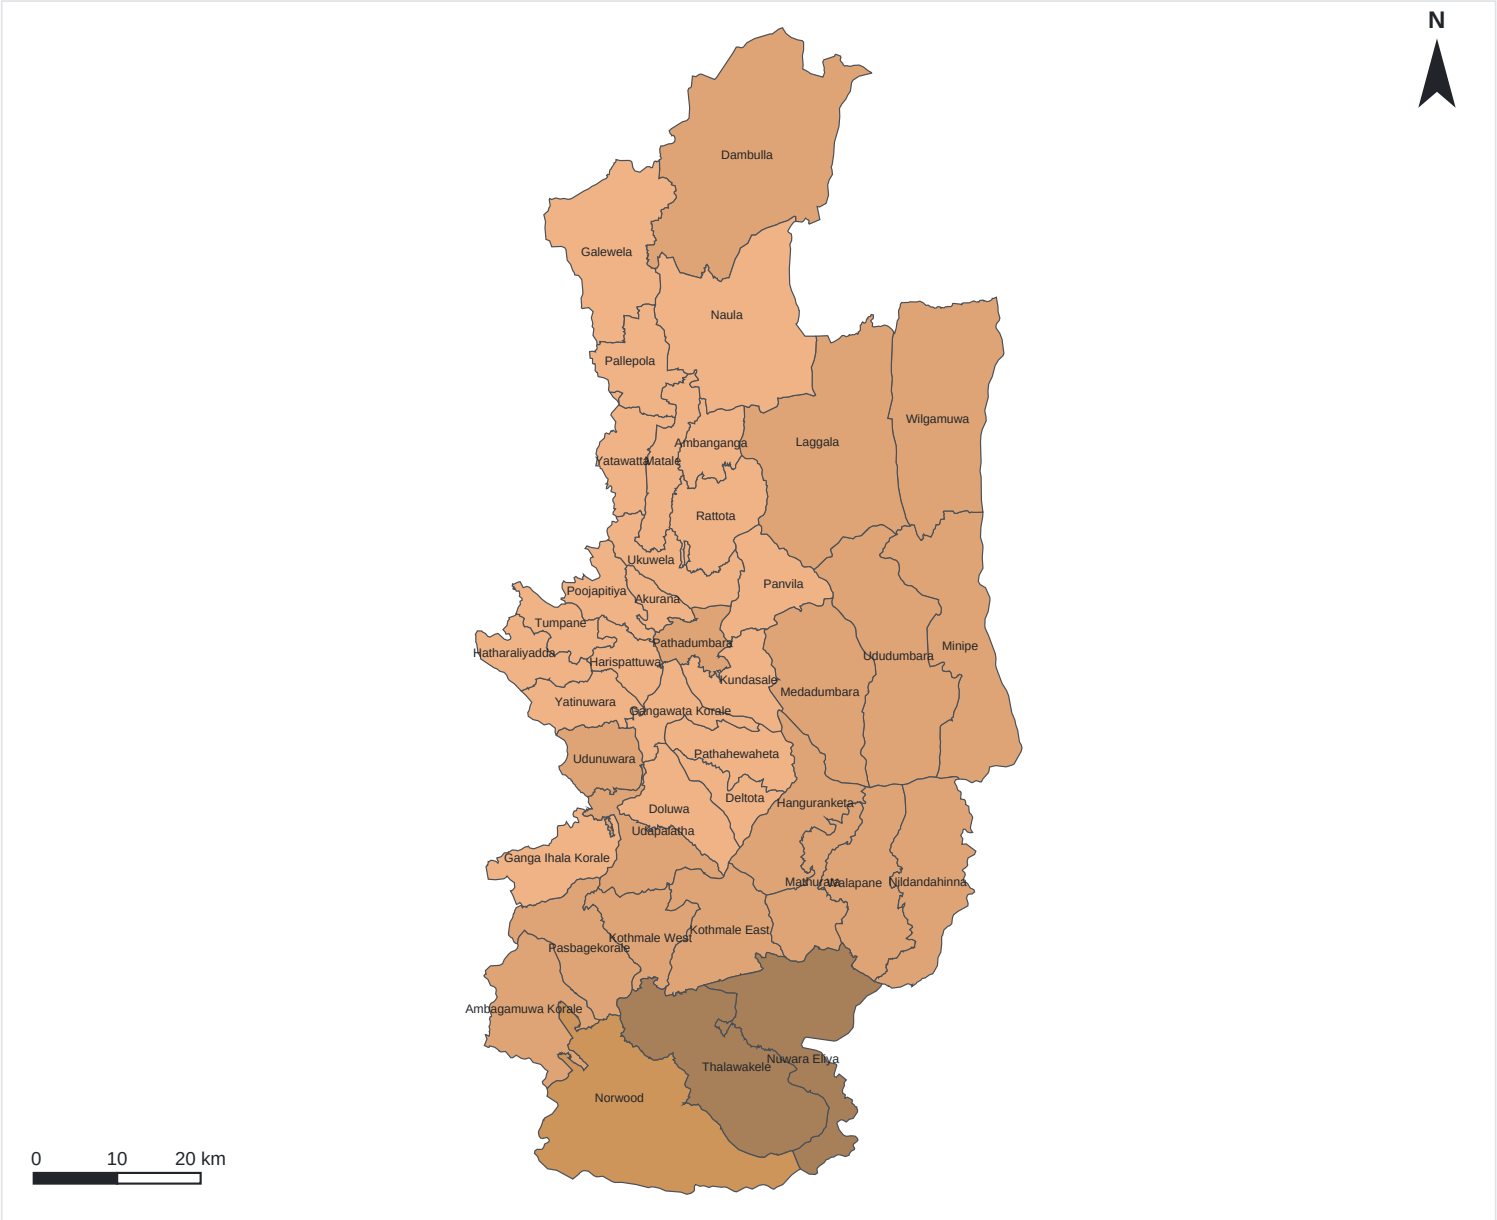

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of vulnerability.

Hazard - Human Settlements Sector - Flood

Central Province | 2021-2025 | Official track
Profile HUMAN_SETTLEMENTS_SECTOR_FLOOD_CEN_V2 (version 2) | hazard index of each DS division

Hazard level			
	High	0.75-1.00	2
	Moderate	0.50-0.75	1
	Low	0.25-0.50	17
	Very low	0.00-0.25	21

Hazard index: this sector profile's weighted, province-normalised hazard variables (0-1). Band thresholds are fixed, not derived from the data.

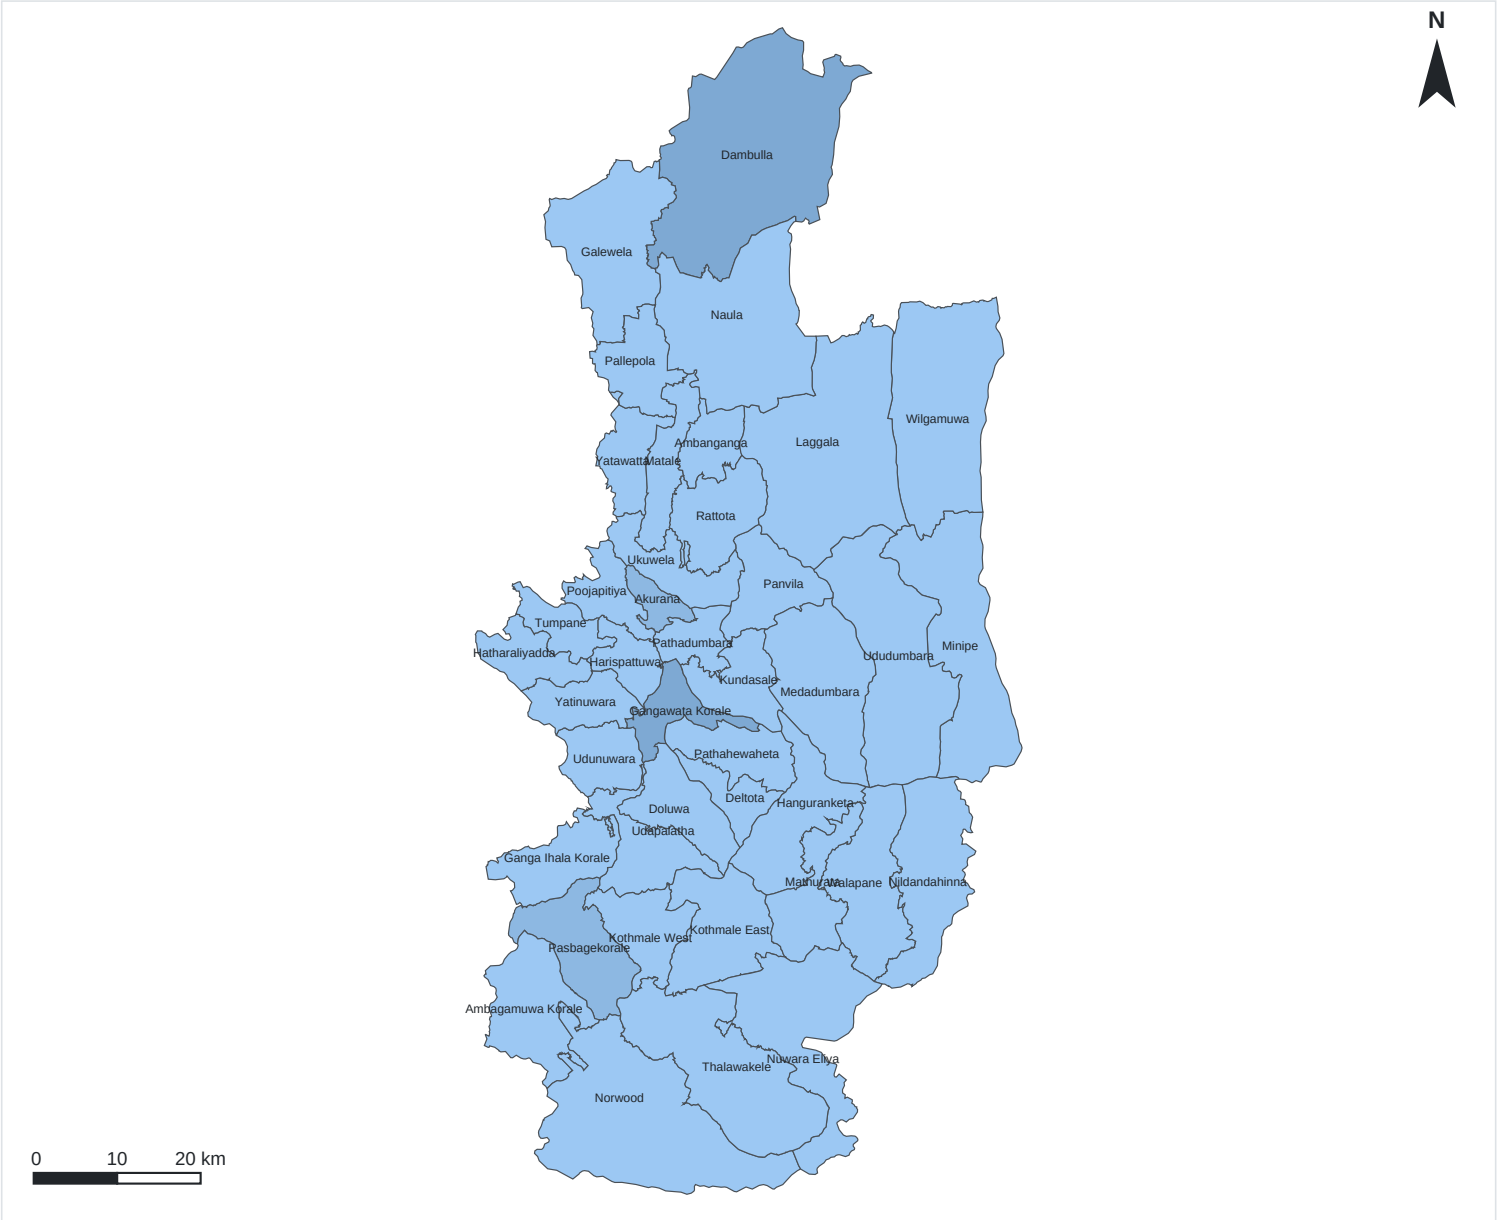

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of hazard.

Exposure - Human Settlements Sector - Flood

Central Province | 2021-2025 | Official track
Profile HUMAN_SETTLEMENTS_SECTOR_FLOOD_CEN_V2 (version 2) | exposure index of each DS division

Exposure level			
	High	0.75-1.00	0
	Moderate	0.50-0.75	2
	Low	0.25-0.50	2
	Very low	0.00-0.25	37

Exposure index: this sector's weighted, province-normalised exposure variables (0-1). Band thresholds are fixed, not derived from the data.

Data coverage

41 of 41 DS divisions shown with a value.

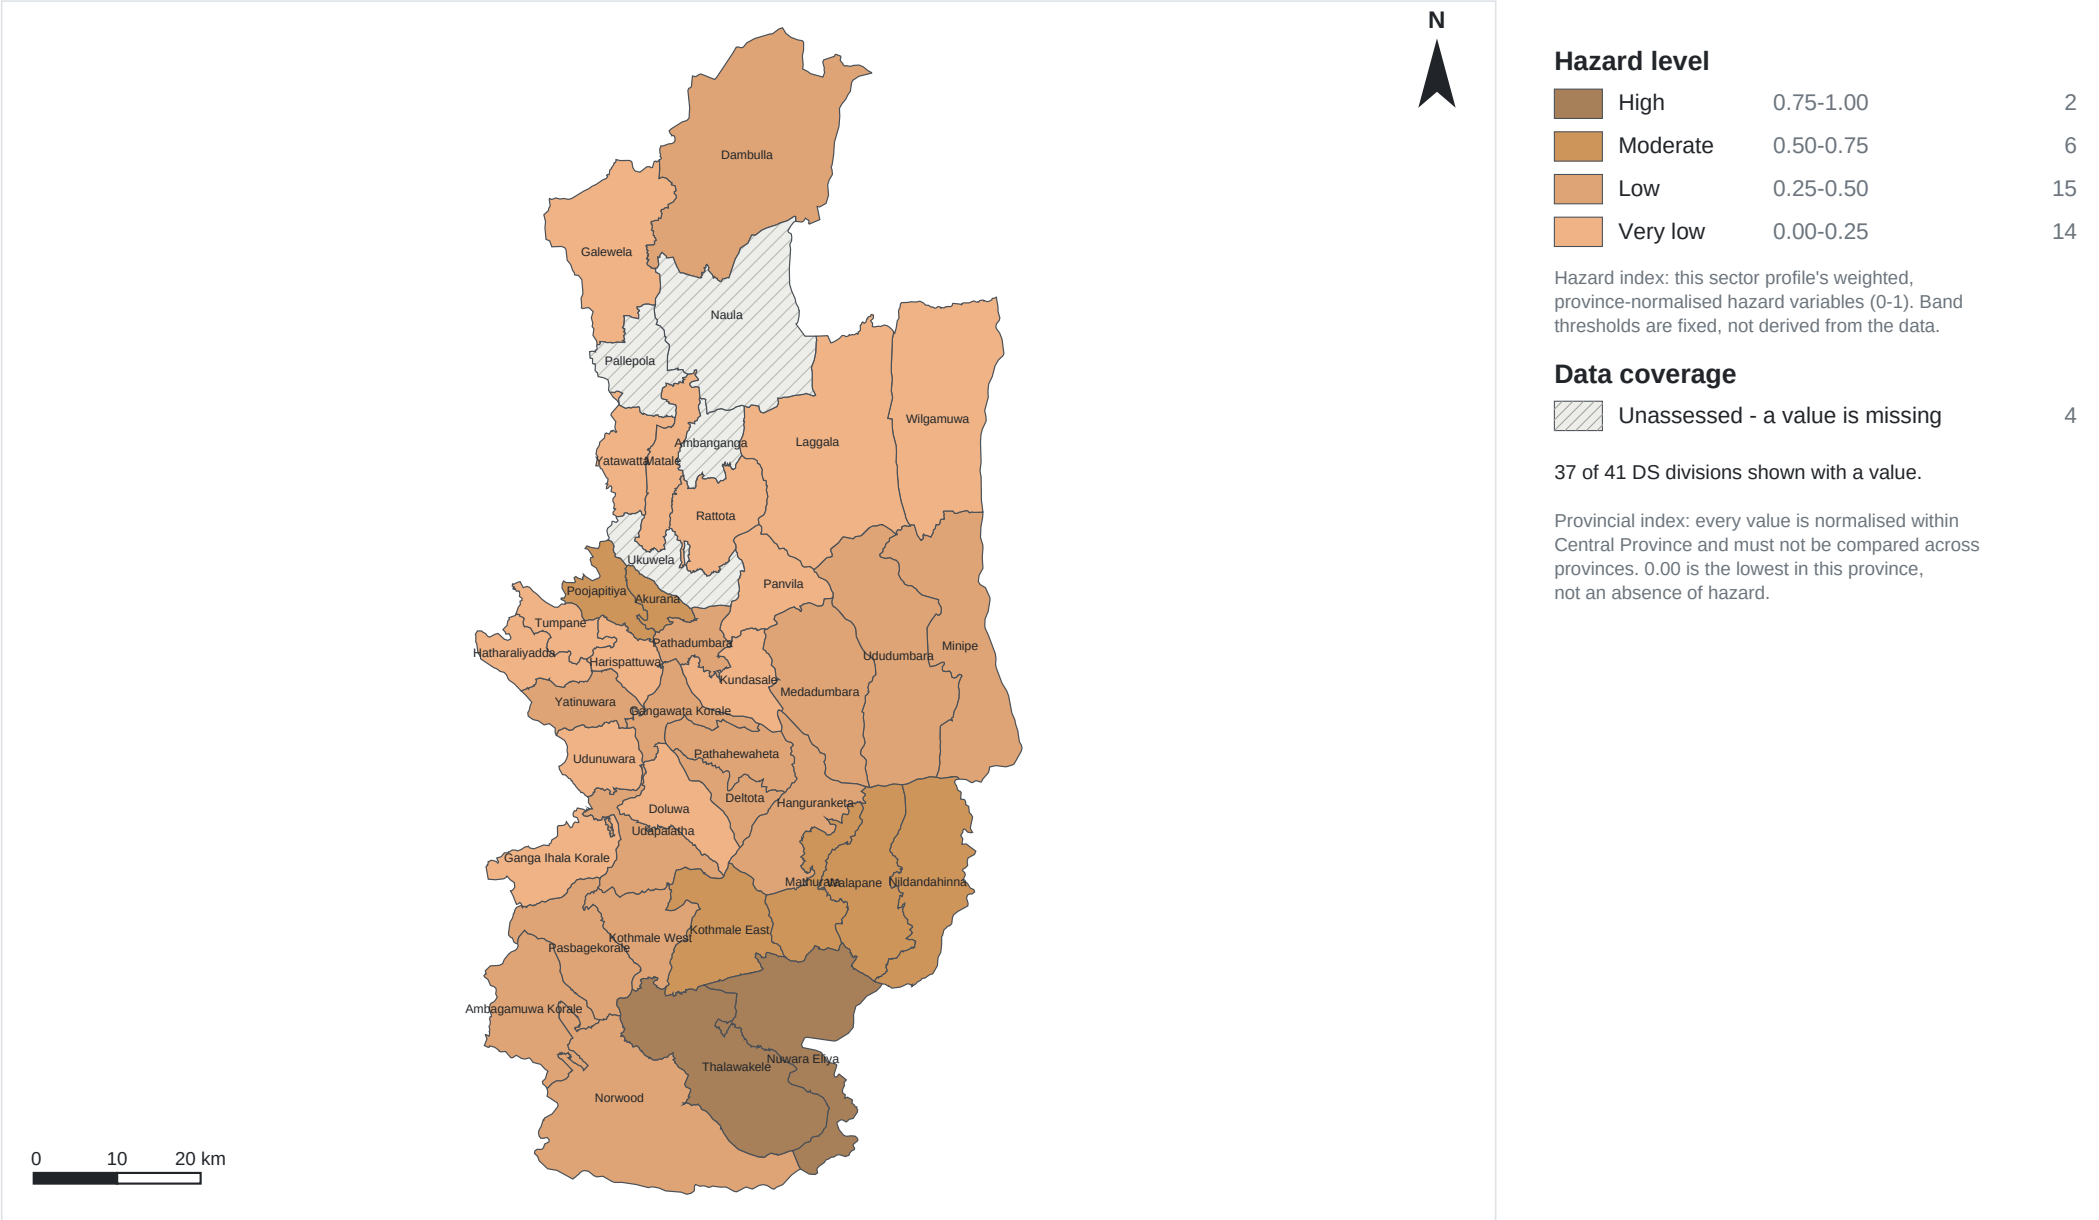

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of exposure.

Profile HUMAN_SETTLEMENTS_SECTOR_LANDSLIDE_CEN_V2 (version 2) | vulnerability index of each DS division

Hazard - Human Settlements Sector - Landslide

Central Province | 2021-2025 | Official track
Profile HUMAN_SETTLEMENTS_SECTOR_LANDSLIDE_CEN_V2 (version 2) | hazard index of each DS division

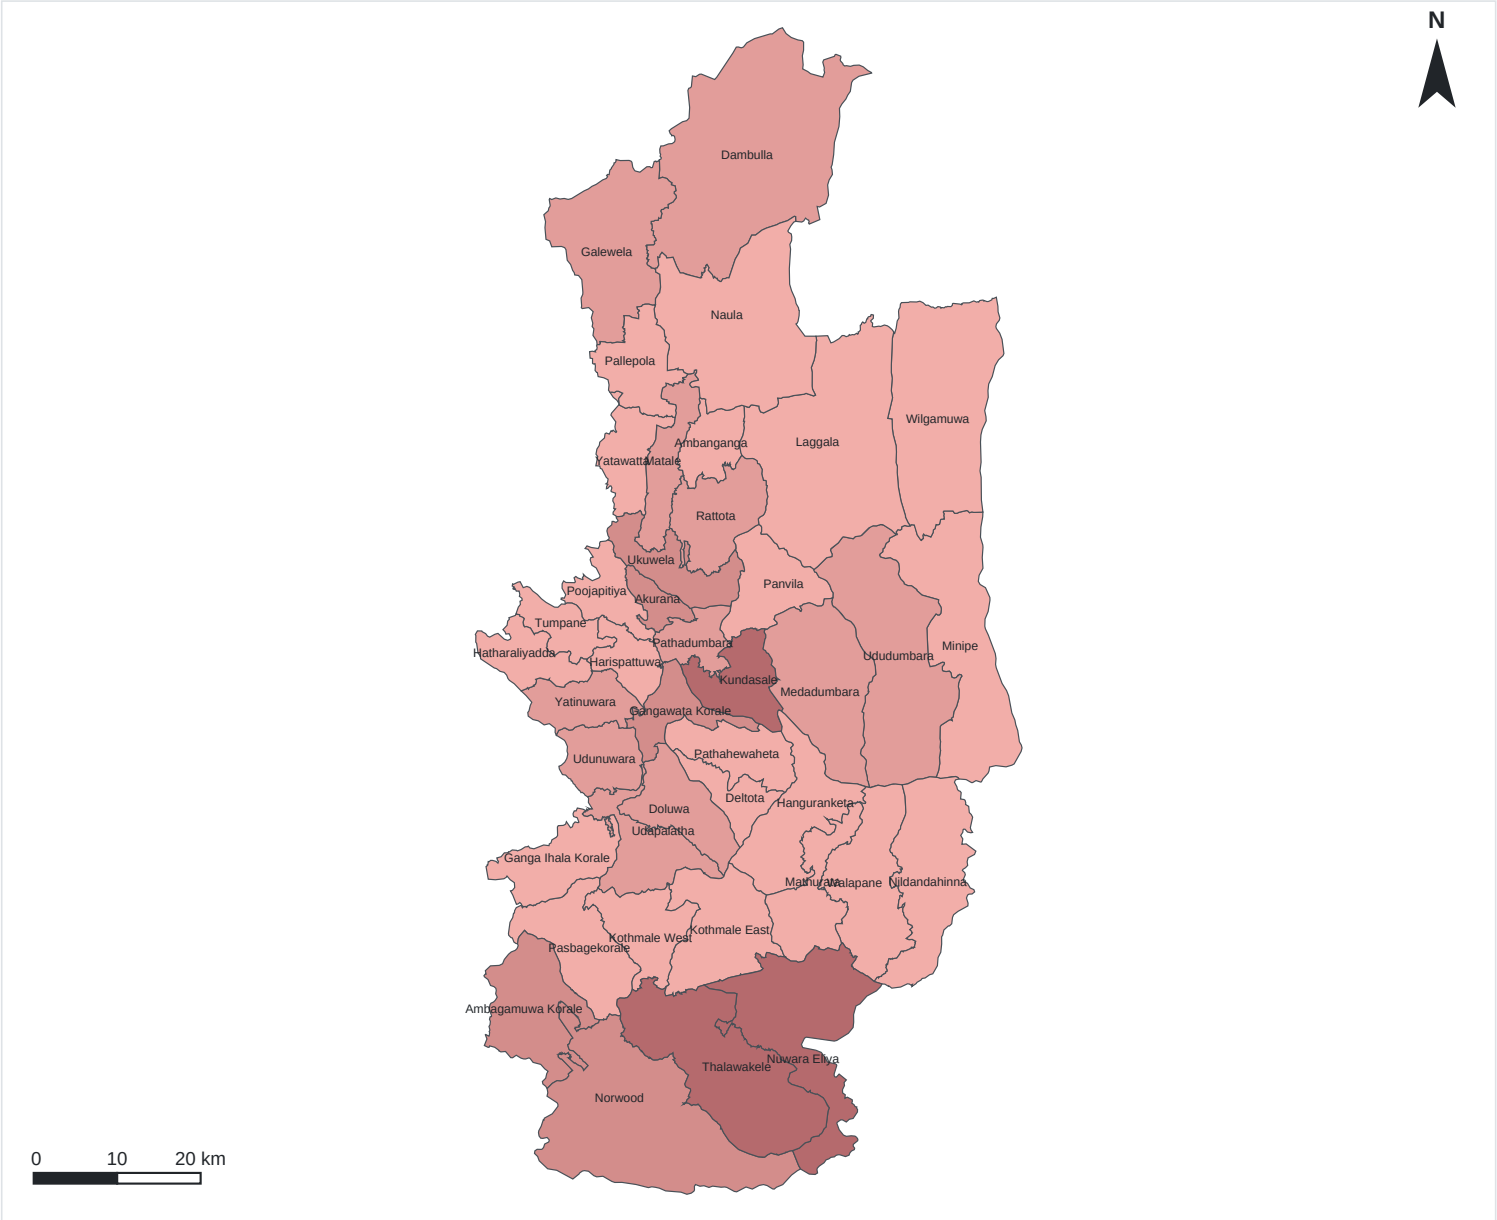

Profile HUMAN_SETTLEMENTS_SECTOR_LANDSLIDE_CEN_V2 (version 2) | exposure index of each DS division

Vulnerability - Industry Sector - Drought

Central Province | 2021-2025 | Official track
Profile INDUSTRY_SECTOR_DROUGHT_CEN_V2 (version 2) | vulnerability index of each DS division

Vulnerability level			
High	0.75-1.00	3	
Moderate	0.50-0.75	5	
Low	0.25-0.50	11	
Very low	0.00-0.25	22	

Vulnerability index: hazard x exposure, rescaled 0-1 within the province. Band thresholds are fixed, not derived from the data.

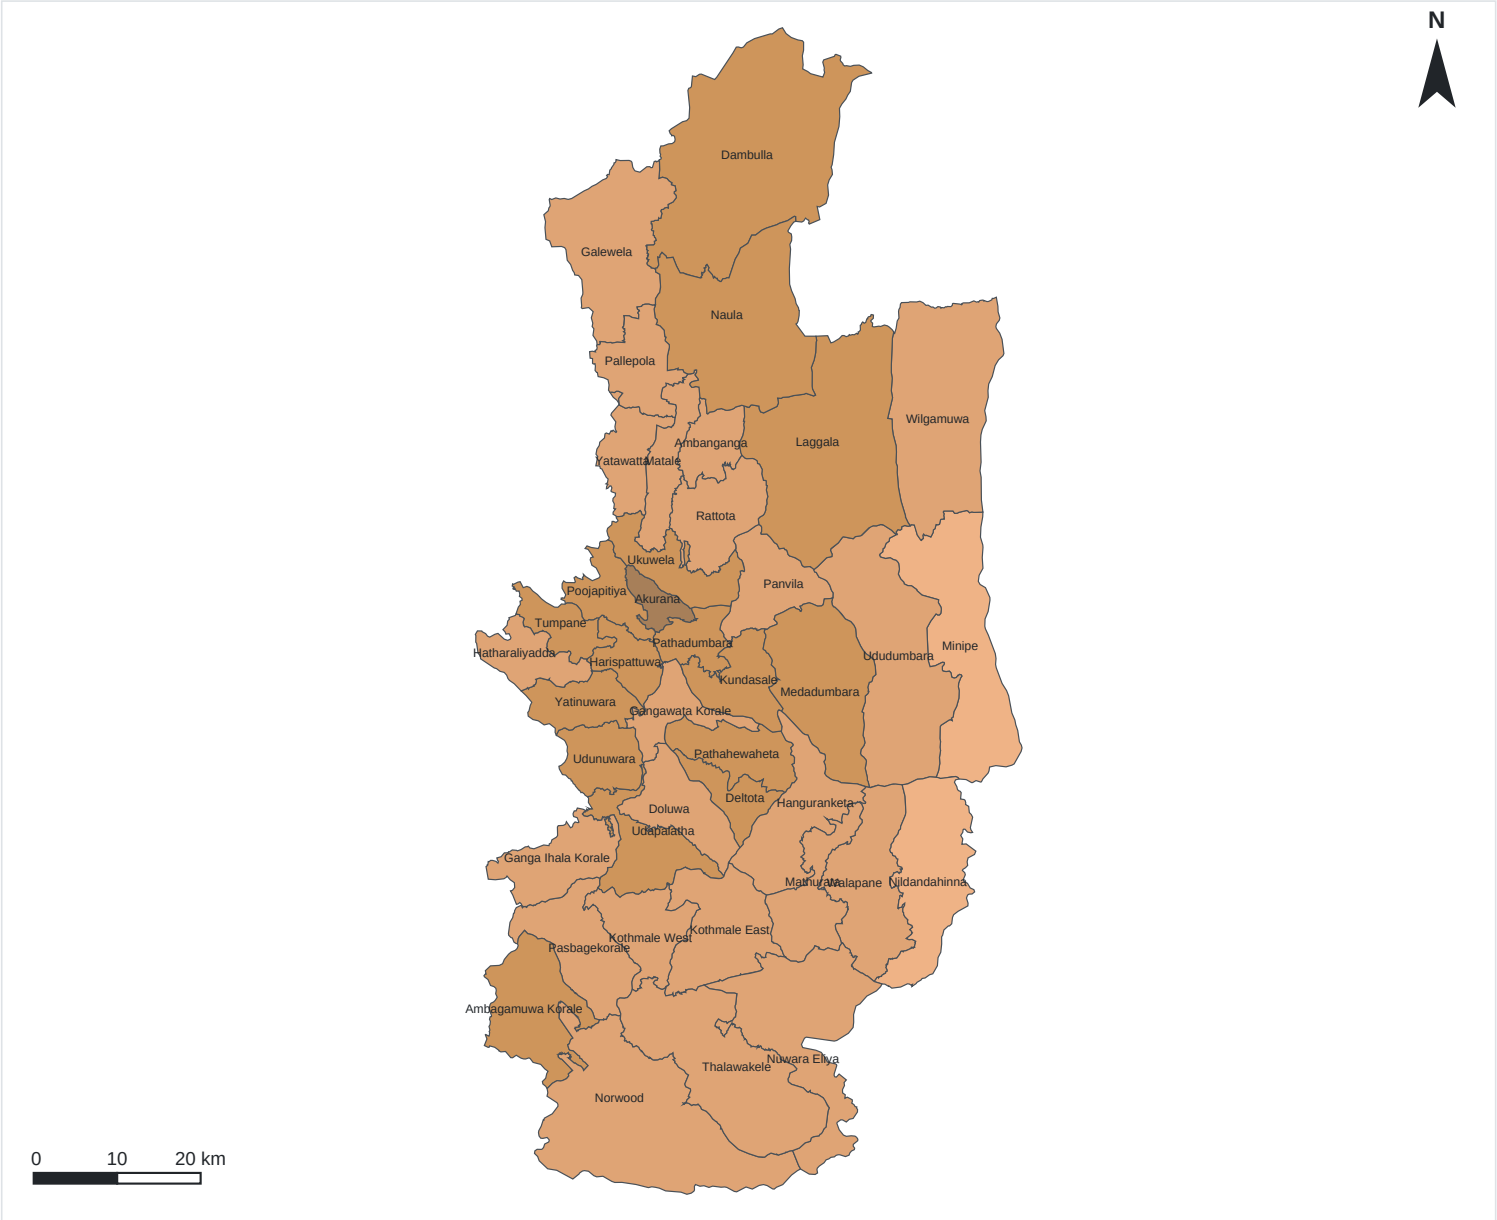

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of vulnerability.

Hazard - Industry Sector - Drought

Central Province | 2021-2025 | Official track
Profile INDUSTRY_SECTOR_DROUGHT_CEN_V2 (version 2) | hazard index of each DS division

Hazard level

High	0.75-1.00	1
Moderate	0.50-0.75	16
Low	0.25-0.50	22
Very low	0.00-0.25	2

Hazard index: this sector profile's weighted, province-normalised hazard variables (0-1). Band thresholds are fixed, not derived from the data.

Data coverage

41 of 41 DS divisions shown with a value.

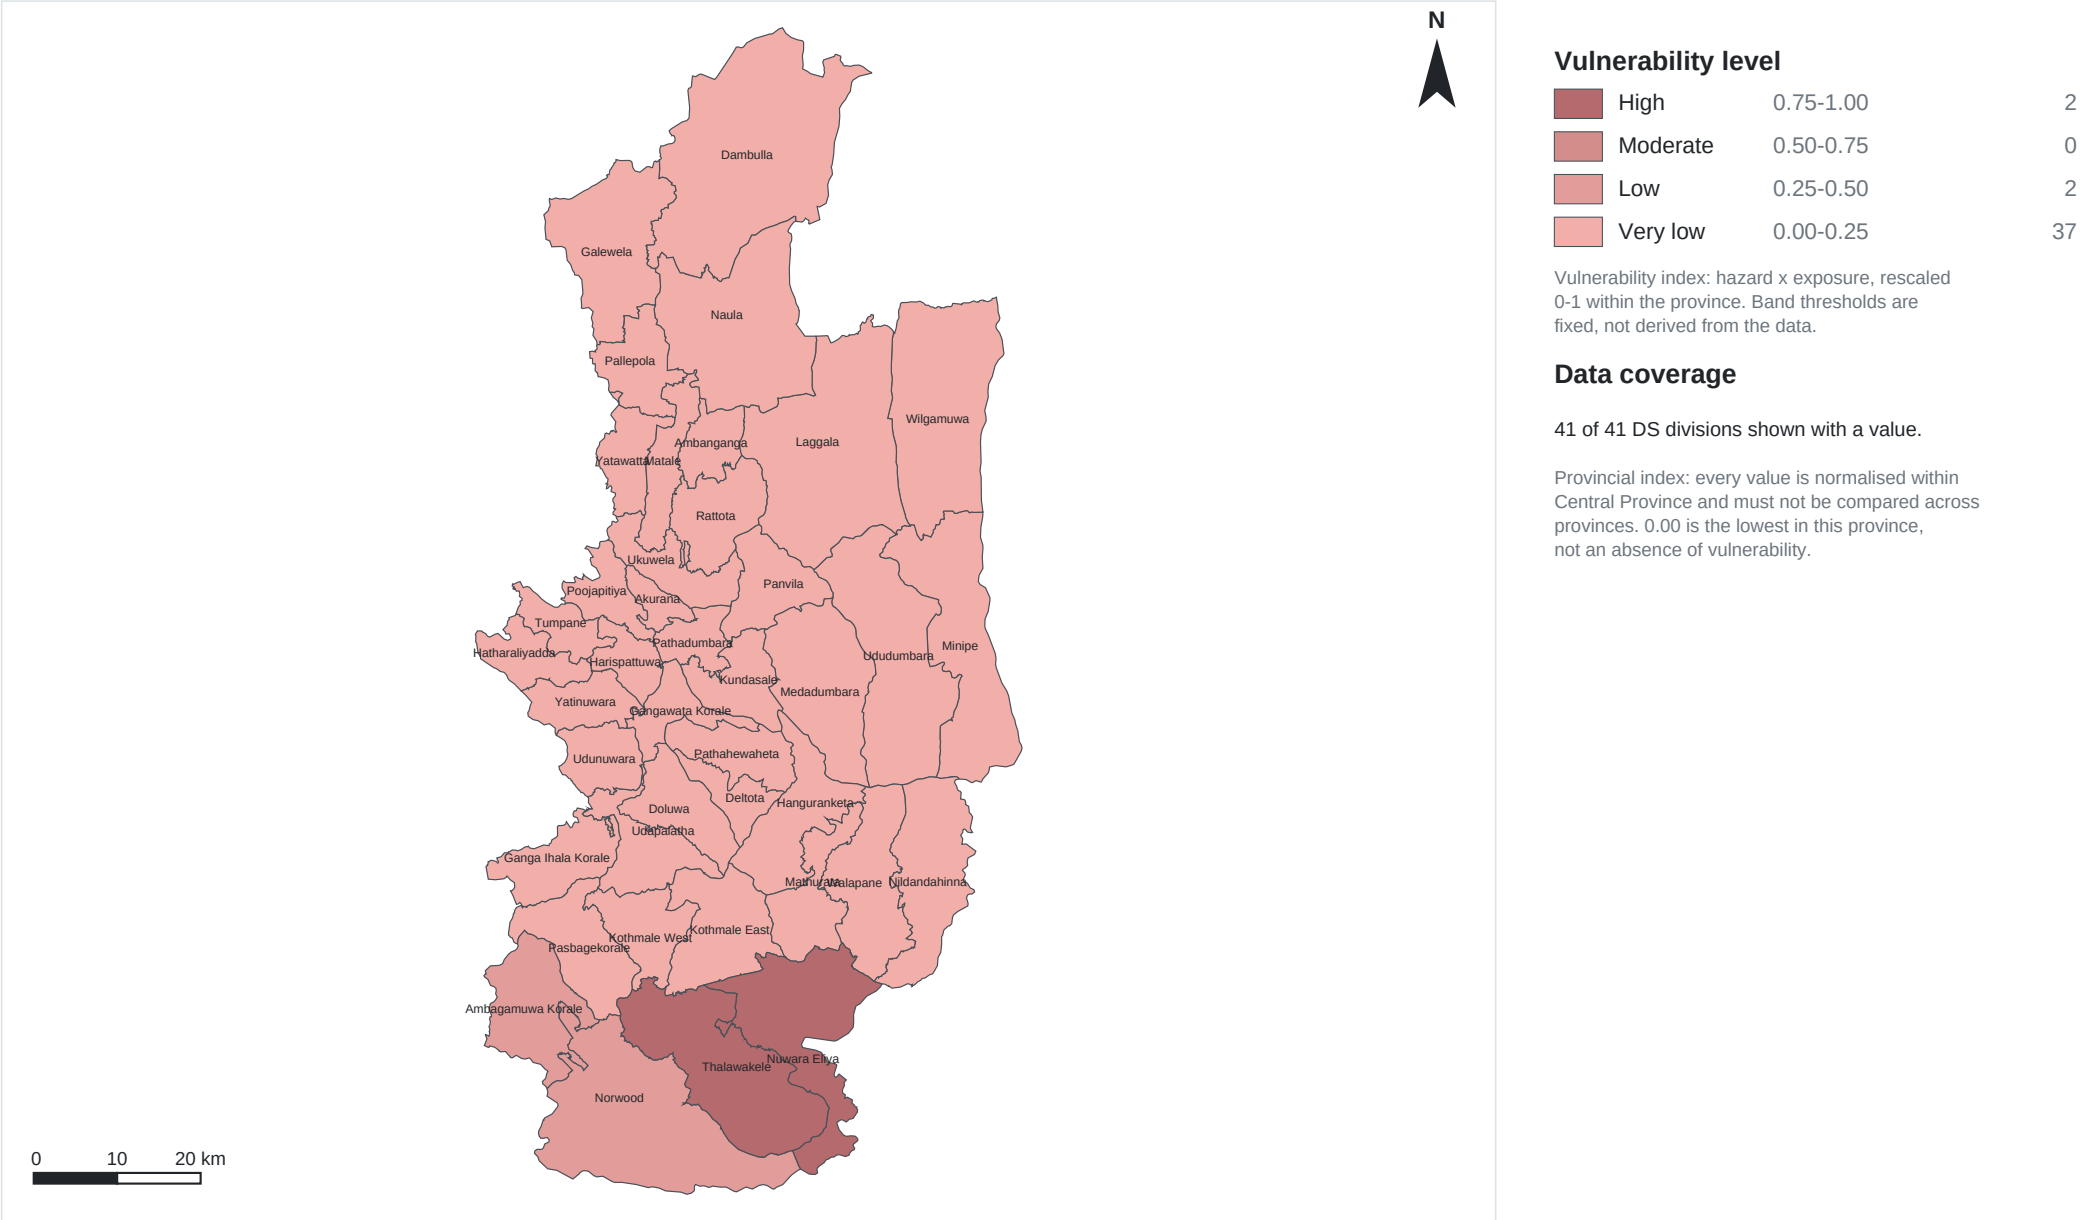

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of hazard.

Central Province | 2021-2025 | Official track
Profile INDUSTRY_SECTOR_DROUGHT_CEN_V2 (version 2) | exposure index of each DS division

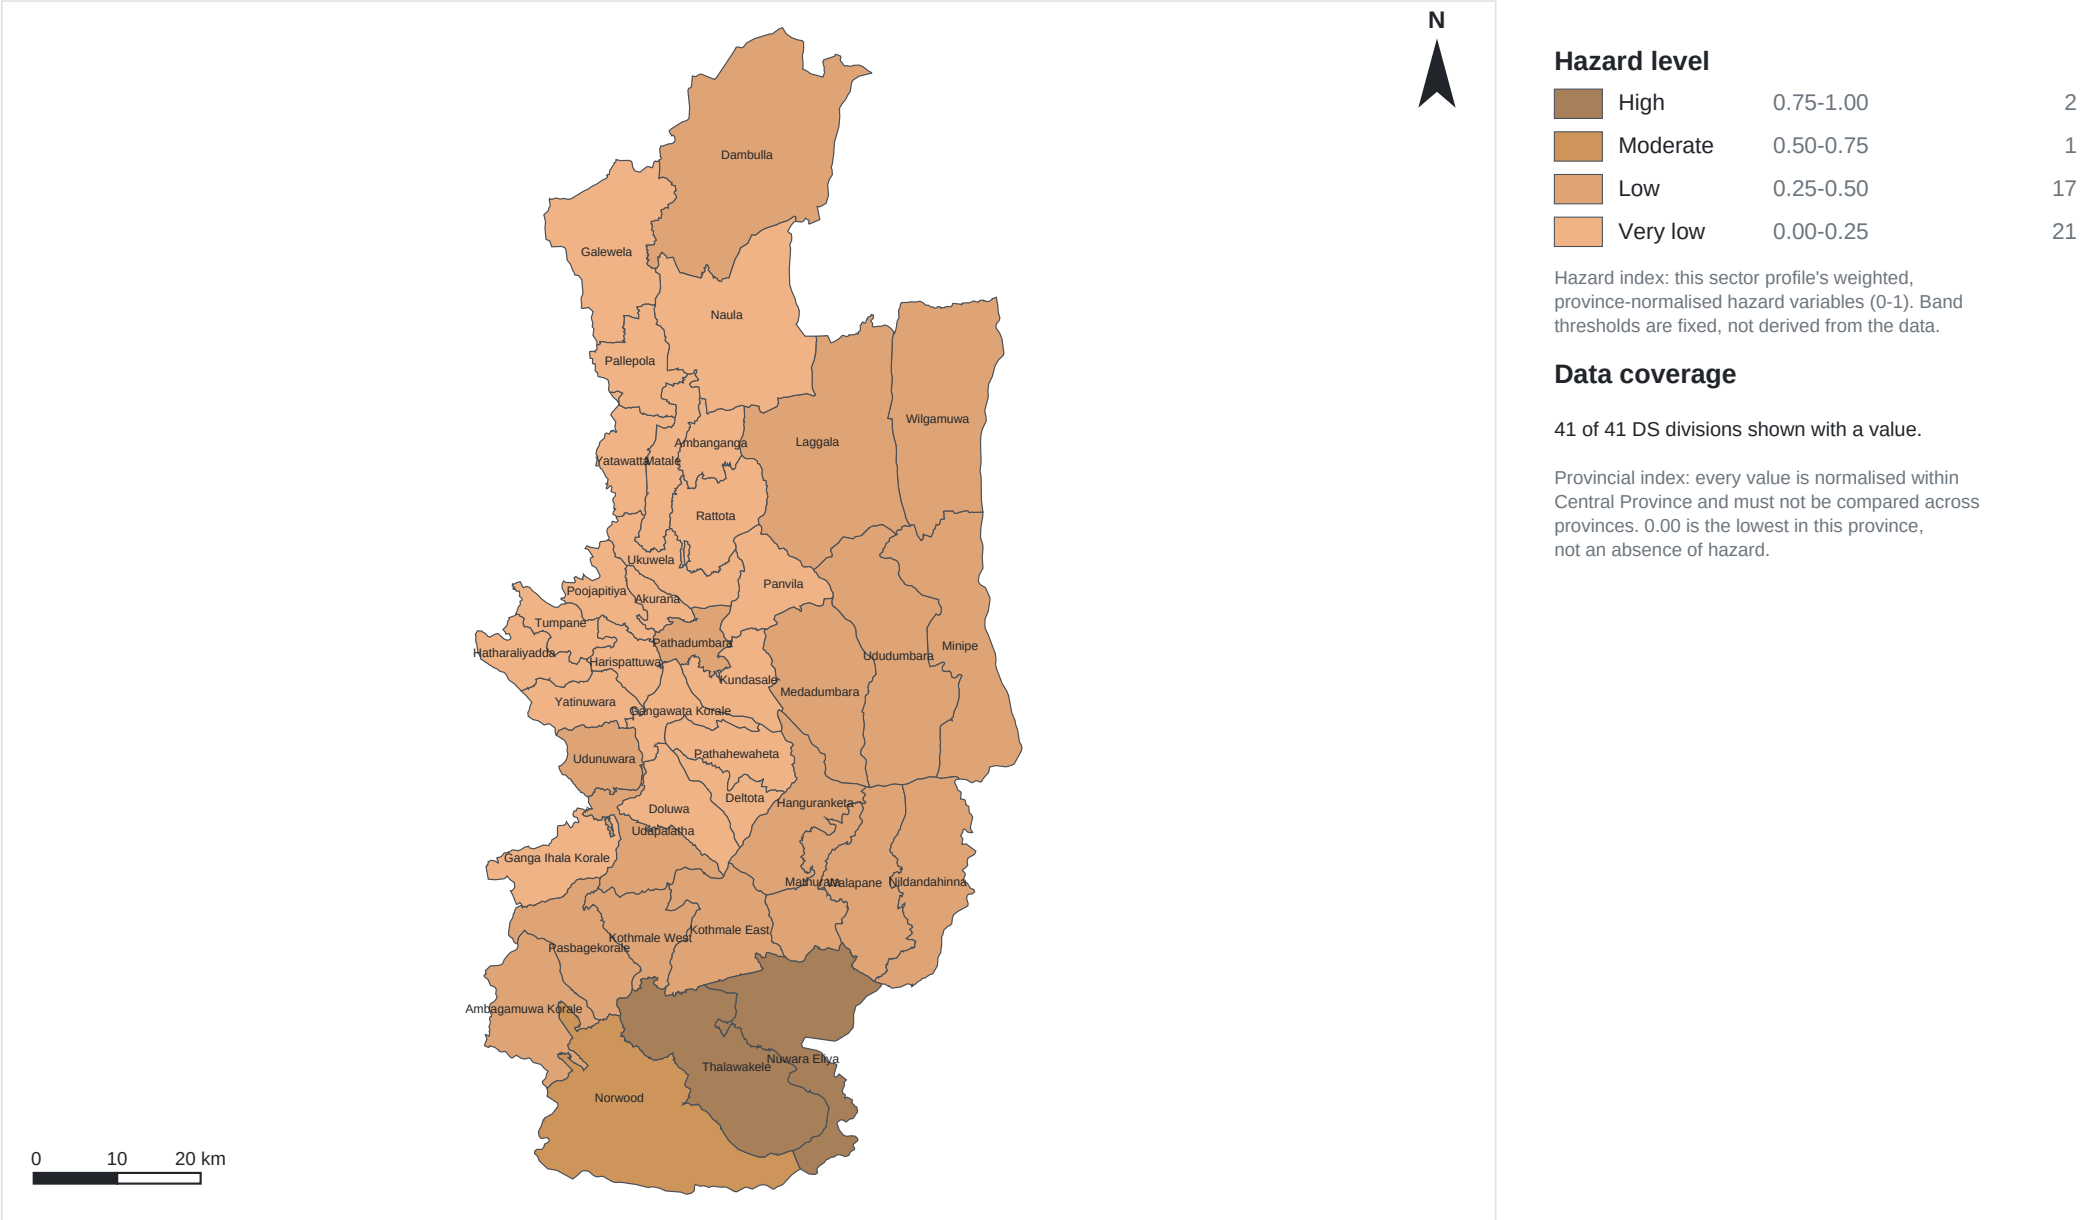

Vulnerability - Industry Sector - Flood

Central Province | 2021-2025 | Official track

Exposure - Industry Sector - Flood

Central Province | 2021-2025 | Official track
Profile INDUSTRY_SECTOR_FLOOD_CEN_V2 (version 2) | exposure index of each DS division

Exposure level			
	High	0.75-1.00	0
	Moderate	0.50-0.75	0
	Low	0.25-0.50	8
	Very low	0.00-0.25	33

Exposure index: this sector's weighted, province-normalised exposure variables (0-1). Band thresholds are fixed, not derived from the data.

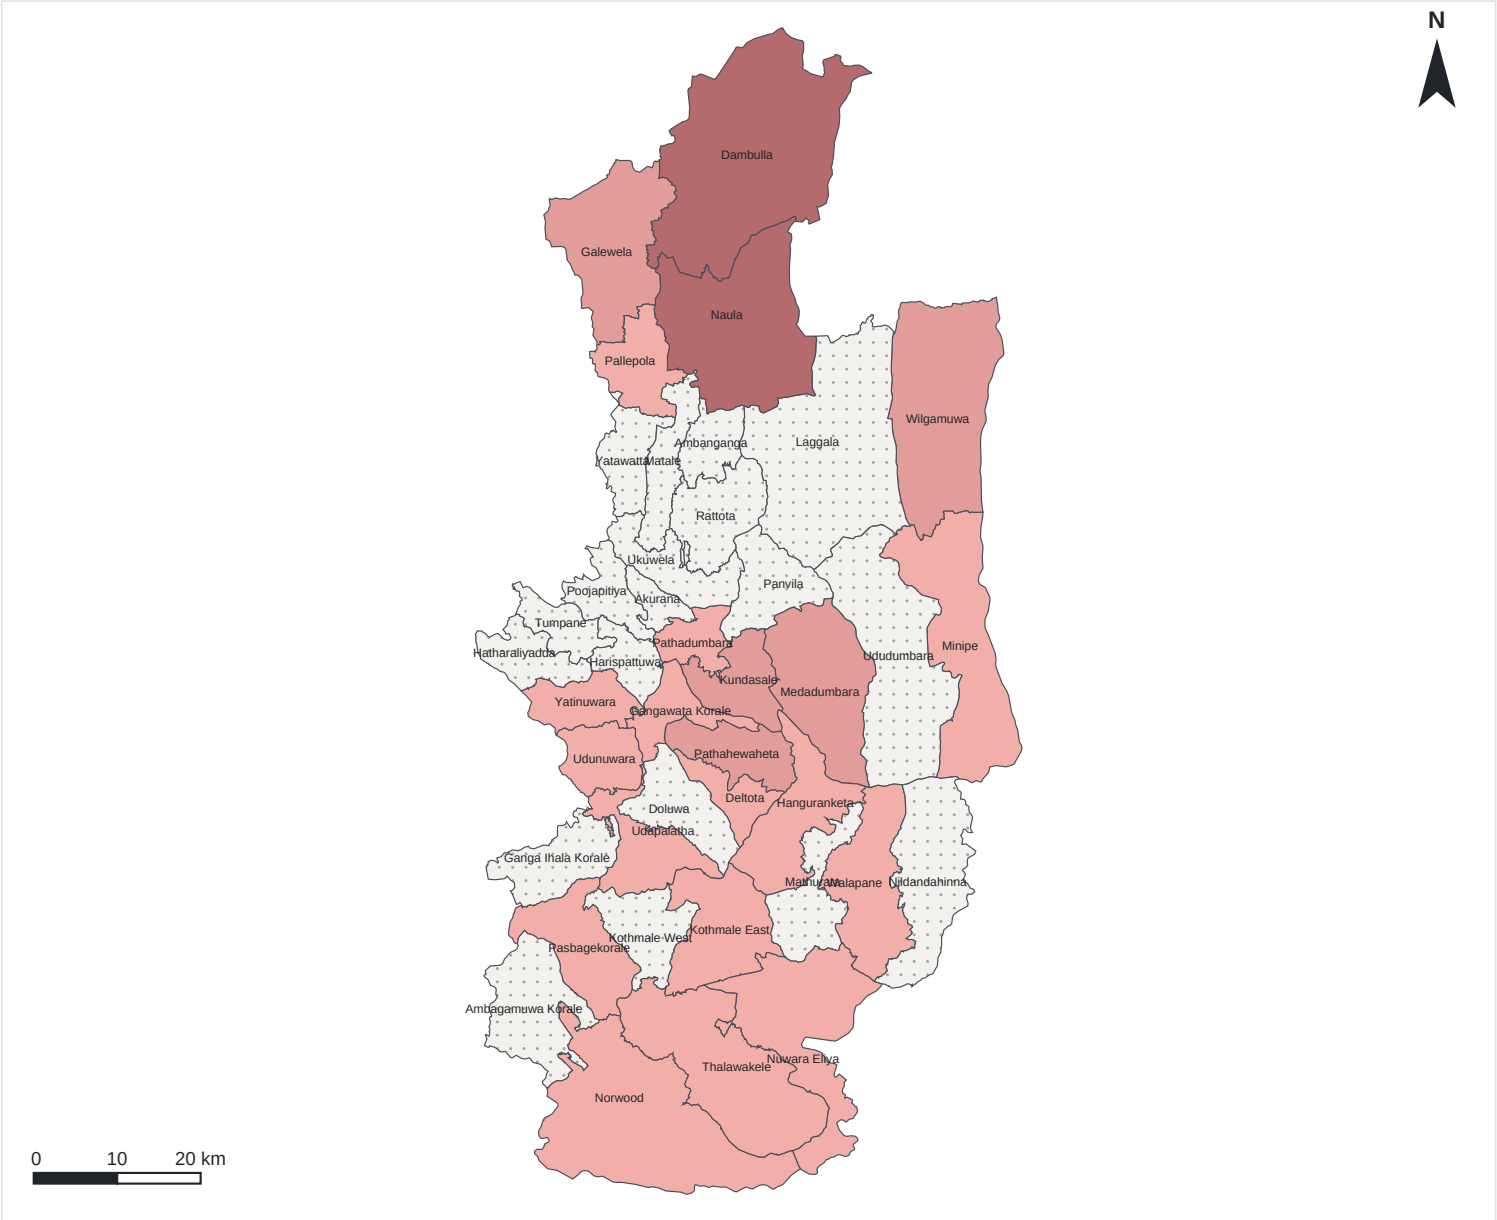

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of exposure.

Vulnerability - Inland Fishery Sector / Inland Fishery - Drought

Central Province | 2021-2025 | Official track
Profile INLAND_FISHERY_DROUGHT_CEN_V2 (version 2) | vulnerability index of each DS division

Vulnerability level			
	High	0.75-1.00	2
	Moderate	0.50-0.75	0
	Low	0.25-0.50	5
	Very low	0.00-0.25	15

Vulnerability index: hazard x exposure, rescaled 0-1 within the province. Band thresholds are fixed, not derived from the data.

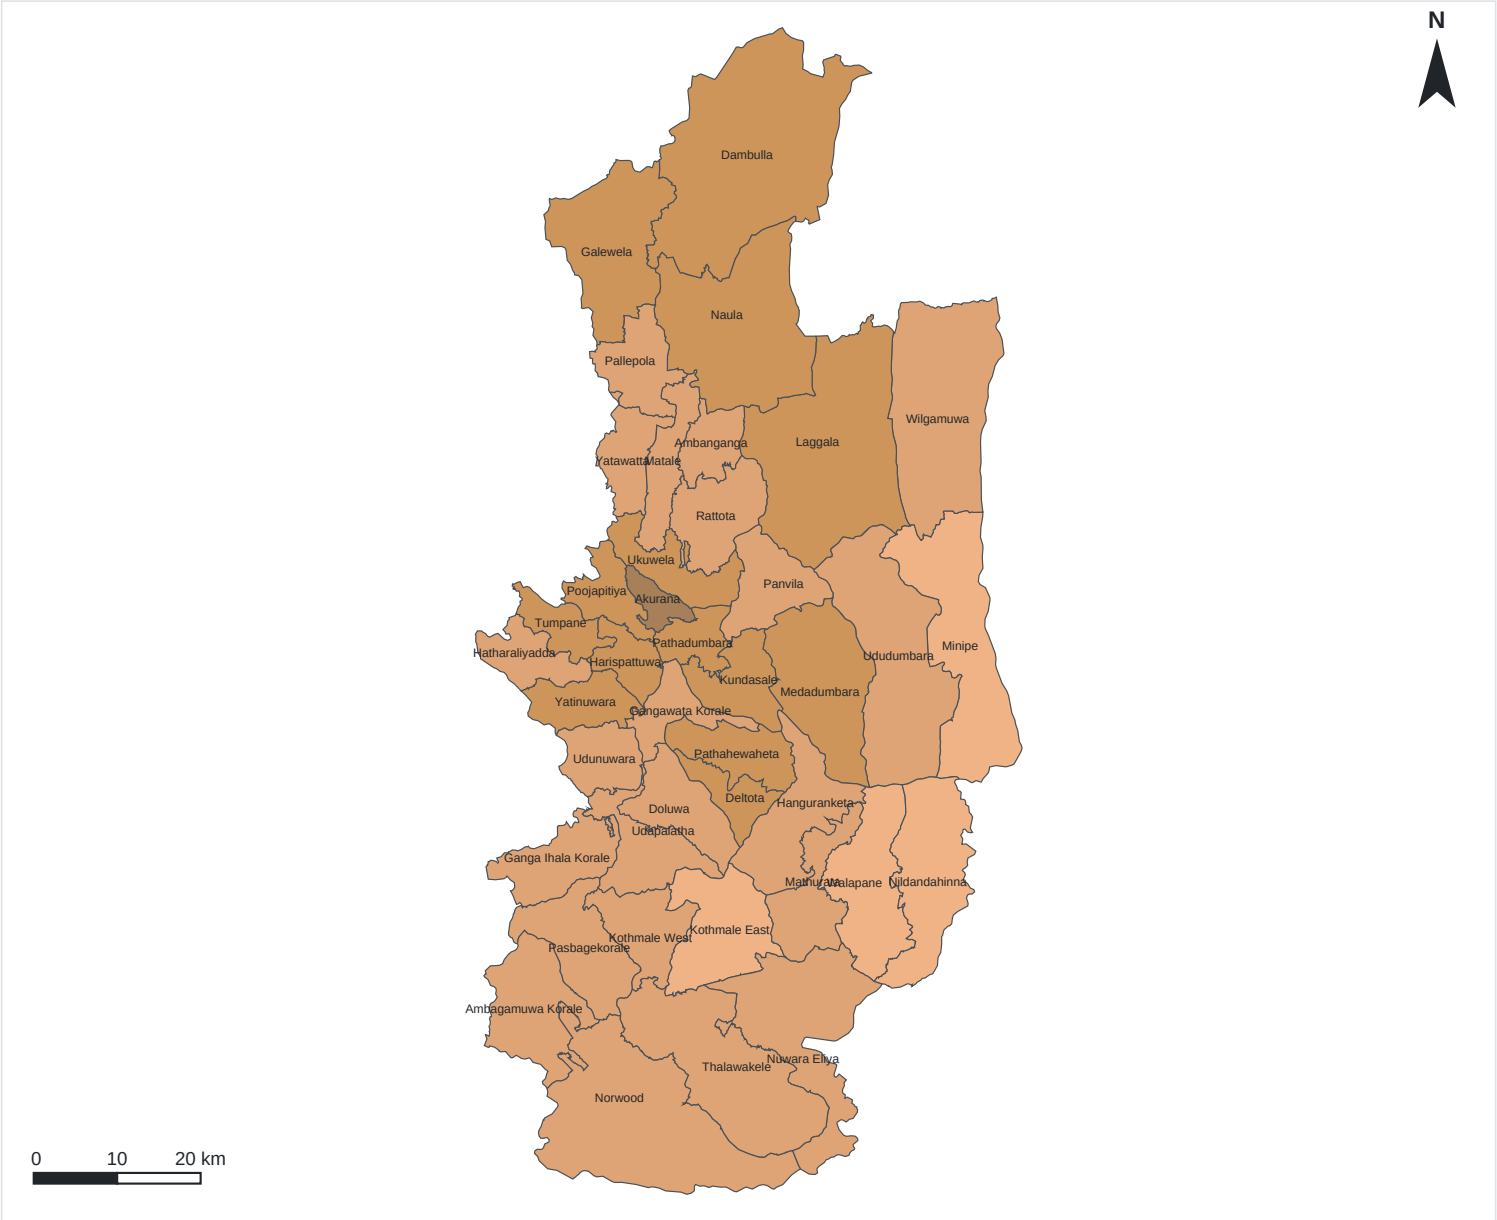

Data coverage		
	Sector not present	19

22 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of vulnerability.

Hazard - Inland Fishery Sector / Inland Fishery - Drought

Central Province | 2021-2025 | Official track
Profile INLAND_FISHERY_DROUGHT_CEN_V2 (version 2) | hazard index of each DS division

Hazard level			
	High	0.75-1.00	1
	Moderate	0.50-0.75	14
	Low	0.25-0.50	22
	Very low	0.00-0.25	4

Hazard index: this sector profile's weighted, province-normalised hazard variables (0-1). Band thresholds are fixed, not derived from the data.

Data coverage

41 of 41 DS divisions shown with a value.

Provincial index: every value is normalised within Central Province and must not be compared across provinces. 0.00 is the lowest in this province, not an absence of hazard.
